The Polar Bears From Normandy To The Relief Of Holland With The 49th Division:

The Polar Bears Patrick Delaforce, 2018-06-02 Originally a Territorial unit with its roots in the West Riding of Yorkshire the 49th Infantry Division saw action in the ill fated Norwegian campaign in 1940 before it was appointed to garrison Iceland where it stayed for two years In August 1944 under the command of the Canadian Army the Polar Bears acted as Monty's left flank after the invasion of France Following the battle for Normandy the Polar Bears played a key role in the capture of Le Havre campaigned vigorously in Belgium and garrisoned the island between Arnhem and Nijmegen during the winter of 1944 They helped to take Arnhem and then liberated Utrecht and Hilversum and the Recce regiment were the first to arrive with their armoured cars in Amsterdam In the final weeks of the war the Polar Bears played a humanitarian role by bringing desperately needed food supplies to the starving population of Holland During the campaign in North West Europe the Polar Bears were a completely British division with units drawn from Yorkshire Durham Royal Scots Fusiliers Tyneside Scottish Lincolnshire Leicestershire Kent Yeomanry and Suffolk Hussars In August 1944 they were joined by the South Wales Borderers the Gloucesters and the Essex regiments The Polar Bears suffered 11 000 casualties and earned a Victoria Cross Following the successful formula adopted for his other divisional histories Patrick Delaforce draws on contributions from the soldiers who fought with the Polar Bears privates NCOs and officers alike In their own words they tell just what it was like as they fought through from Normandy to the relief of Holland

The Polar Bears Patrick Delaforce, 1995 This is the 5th title in the series of British Army divisional histories Illustrated with many photos it records the achievements of the 49th Infantry Division Included are first hand accounts from men who were there

Monty's Functional Doctrine Charles Forrester, 2015-08-19 Using a combination of new perspectives and new evidence this book presents a reinterpretation of how 21st Army Group produced a successful combined arms doctrine by late 1944 and implemented this in early 1945 Historians professional military personnel and those interested in military history should read this book which contributes to the radical reappraisal of Great Britain's fighting forces in the last years of the Second World War with an exploration of the reasons why 21st Army Group was able in 1944-45 to integrate the operations of its armor and infantry The key to understanding how the outcome developed lies in understanding the ways in which the two processes of fighting and the creation of doctrine interrelated This requires both a conventional focus on command and a cross level study of Montgomery and a significant group of commanders The issue of whether or not this integration of combat arms a guide to operational fighting capability had any basis in a common doctrine is an important one Alongside this stands the new light this work throws on how such doctrine was created A third interrelated contribution is in answering how Montgomery commanded and whether and to what extent doctrine was imposed or generated Further it investigates how a group of effervescent commanders interrelated and what the impact of those interrelationships was in the formulation of a workable doctrine The book makes an original contribution to the debate on Montgomery's command style in Northwest Europe and its

consequences and integrates this with tracking down and disentangling the roots of his ideas and his role in the creation of doctrine for the British Army's final push against the Germans. In particular, the author is able to do something that has defeated previous authors: to explain how doctrine was evolved and especially who was responsible for providing the crucial first drafts and the role Montgomery played in revising, codifying and disseminating it. [British Armour in the Normandy Campaign](#) John Buckley, 2004-07-22. The popular perception of the performance of British armour in the Normandy campaign of 1944 is one of failure and frustration. Despite overwhelming superiority in numbers, Montgomery's repeated efforts to employ his armour in an offensive manner ended in a disappointing stalemate. [Fighting the People's War](#) Jonathan Fennell, 2019-01-24. *Fighting the People's War* is an unprecedented panoramic history of the citizen armies of the United Kingdom, Australia, Canada, India, New Zealand and South Africa, the core of the British and Commonwealth armies in the Second World War. Drawing on new sources to reveal the true wartime experience of the ordinary rank and file, Jonathan Fennell fundamentally challenges our understanding of the War and of the relationship between conflict and socio-political change. He uncovers how fractures on the home front had profound implications for the performance of the British and Commonwealth armies, and he traces how soldiers' political beliefs, many of which emerged as a consequence of their combat experience, proved instrumental to the socio-political changes of the postwar era. *Fighting the People's War* transforms our understanding of how the great battles were won and lost, as well as how the postwar societies were forged. **Gunners in Normandy** Major Frank Baldwin, Lieutenant Colonel Will Townend, 2020-03-31. The official account of the Royal Artillery's activities in the Normandy campaign, this volume breaks down the historic achievements of the Regiment, integrating newly published research with a detailed account of their activities, logistics and equipment in the offensive. Essential for currently serving members of the Royal Artillery, *Gunners in Normandy* includes mention of every regiment that served, a Roll of Honour and a list of the dead by unit. This book presents the definitive record of events assembled from interviews with veterans, papers and documents from the Firepower Archives, terrain studies, personal memoirs, war diaries and other official documents. Serious students of the battle for Normandy should find this essential reading with comprehensive coverage of the role of the Royal Artillery and much material not published anywhere else, including orders of battle, the details of targets engaged by the guns and their effectiveness. *The Second World War Through Soldiers' Eyes* James Goulty, 2016-07-31. What was it really like to serve in the British Army during the Second World War? Discover a soldier's view of life in the British Army from recruitment and training to the brutal realities of combat. Using first-hand sources, James Goulty reconstructs the experiences of the men and women who made up the citizen's army. Find out about the weapons and equipment they used, the uniforms they wore, how they adjusted to army discipline and faced the challenges of active service overseas. What happened when things went wrong? What were your chances of survival if you were injured in combat or taken prisoner? While they didn't go into combat, thousands of women also served in the British Army with the ATS or as nurses.

What were their wartime lives like And when the war had finally ended how did newly demobilised soldiers and servicewomen cope with returning home The British Army that emerged victorious in 1945 was vastly different from the poorly funded force of 865 000 men who heard Neville Chamberlain declare war in 1939 With an influx of civilian volunteers and conscripts the army became a citizens force and its character and size were transformed By D Day Britain had a well equipped disciplined army of over three million men and women and during the war they served in a diverse range of places across the world This book uncovers some of their stories and gives a fascinating insight into the realities of army life in wartime

Rhineland Anthony Tucker-Jones,2025-10-09 A dramatic retelling of the desperate battle of the Rhineland during World War II from the German perspective The Rhineland was where Adolf Hitler sowed the seeds for the Second World War when he remilitarized it in breach of the Treaty of Versailles in 1936 and by late 1944 the Rhine provided the last major obstacle to the advancing Allied armies that were threatening the Fatherland itself In this new history of this vital campaign respected military historian Anthony Tucker Jones describes the race against time as the Germans fought to stave off the inevitable It was essential that the Germans held the west bank in order to protect the Rhine crossings at Cologne Bonn Koblenz and Remagen but Hitler was intent on counter attacking in the Ardennes in the winter of 1944 and this meant there was little left to bolster the defences of the Rhine Rhineland relates the course of this desperate defence describing the build up of forces and operational plans before going on to tell the story of the campaign from the point of view of the forces involved from the ordinary German soldier through to the high command

Royal Artillery in the Second World War Richard Doherty,2016-07-22 During the Second World War the Germans considered the Royal Artillery to be the most professional arm of the British Army British gunners were accurate effective and efficient and provided fire support for their armoured and infantry colleagues that was better than that in any other army However the Royal Artillery delivered much more than field and medium artillery battlefield support Gunner regiments manned antitank guns on the front line and light anti aircraft guns in divisional regiments to defend against air attack at home and abroad The Royal Artillery also helped to protect convoys that brought essential supplies to Britain and AA gunners had their finest hour when they destroyed the majority of the V 1 flying bombs launched against Britain from June 1944 Richard Doherty delves into the wide ranging role of the Royal Artillery examining its state of preparedness in 1939 the many developments that were introduced during the war including aerial observation and self propelled artillery the growth of the regiment and its effectiveness in its many roles *Royal Artillery in the Second World War* is a comprehensive account of a British Army regiment that played a vital role in the ensuing Allied victory

From Norway to Burma Roger Holgate,2025-05-30 The King s Own Yorkshire Light Infantry fought in WWII across diverse terrains demonstrating extraordinary bravery sacrifice and resilience From 1939 to 1945 units of The King s Own Yorkshire Light Infantry were involved in some of the fiercest battles of the Second World War From the snowy wastes of Scandinavia to the deserts of North Africa and from the mountains of Italy to the steaming jungles of Asia the men

of the KOYLI fought against the forces of all three of the dictatorships that came so close to conquering the world Before taking part in the fighting three battalions of KOYLI had left the regiment to become 53rd 57th and 94th Anti Aircraft Regiments within the Royal Artillery and 149th Armoured Regiment of the Royal Armoured Corps Thus the KOYLI comprised five infantry battalions during the period of the world conflict They were ordinary men from the quiet towns and villages of Yorkshire who suddenly found themselves thrown into a deadly fight against the mightiest military machine the world had ever seen and their story is one of incredible hardship bravery and sacrifice in some of the most daunting and inhospitable places on Earth Illustrated throughout with over 100 photographs and maps this new history offers a unique and detailed look at one of the Second World War s most extraordinary regiments
