The Polish Transformation For The Perspective Of European Integration Eumonitoring:

The Polish Transformation from the Perspective of European Integration Marek Belka, 1997-01-01 Enlargement of the European Union Allan F. Tatham, 2009-01-01

The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty. A significant upshot of these issues is that the concept of European identity defined in terms of such factors as culture, history and economics has supplanted the long dominant theme of widening and deepening, particularly since the Union's expansion has become primarily eastward. The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view, focusing on the concerns of stakeholders and the identity conflicts and uncertainties incurred by enlargement initiatives. In the course of its presentation, it details the actual pre-accession Europeanization process and its complex history. Among the key elements discussed are the following: the conflict between widening and deepening and the effect on EU institutional reform; institutional requirements on candidate countries; pre-accession criteria and negotiations; administrative capacity; judicial capacity and legal approximation in accession states; capacity of the EU to absorb new Member States; and EC law as part of European identity. Also covered are specific historical details of particular pre-accession negotiations, e.g. Greece, Spain, Portugal, Malta and Cyprus; the still inconclusive negotiations with Turkey and the Western Balkan states; and political factors involved in the non-accession of Norway, Iceland and Switzerland. Assembling powerful evidence and applying incisive analysis, the author's conclusion shows that, absent further and major EU institutional reform, it will be difficult for an enlarging Union to continue to deliver the goods. A watershed in the continuing great debate on the fulfilment of the EC Treaty's determination to foster and promote an ever closer union of the peoples of Europe, this book will prove invaluable to anybody interested in the European integration project, particularly lawyers, academics, officials and policymakers in the EU Member States.

European Integration, 1950-2003 John Gillingham, 2003-06-02

Integration is the most significant European historical development in the past fifty years, eclipsing in importance even the collapse of the USSR. Yet until now no satisfactory explanation is to be found in any single book as to why integration is significant, how it originated, how it has changed Europe and where it is headed. Professor Gillingham's work corrects the inadequacies of the existing literature by cutting through the genuine confusion that surrounds the activities of the European Union and by looking at his subject from a truly historical perspective. The late twentieth century has been an era of great though insufficiently appreciated accomplishment that intellectually and morally is still emerging from the shadow of an earlier one of depression and modern despotism. This is a work then that captures the historical distinctiveness of Europe in a way that transcends current party political debate.

EMERGO, 2001 **Társadalom És Gazdaság Közép- És Kelet-Európában**, 1999 **Mosaic of Fear** Helena Flam, 1998

There are many established theories concerning political quiescence and dissent in Soviet era eastern Europe. This book, drawing on newly accessible archival data and over one hundred interviews conducted with communists

dissidents and by standers in Poland and East Germany challenges them

Three Decades of Polish Socio-Economic Transformations Paweł Churski, Tomasz Kaczmarek, 2022-08-27 This edited volume analyses and discusses the systematisation of Polish socio economic transformations of the last three decades using selected examples of the most important changes 1989 marked the onset of the political transformation process in Poland and other countries of Central and Eastern Europe The transition involved a shift from a socialist system to a parliamentary democracy and from a command economy to a market one Due to the deep economic crisis that culminated in 1988 and the peaceful model of change developed and implemented in Poland the magnitude and manner of implementing various initiatives was unprecedented and had specific implications This transformation opened Polish society and the Polish economy to the impact of global social and economic changes triggering successive transformations often overlapping in terms of their causes and consequences This publication aims to present the course and effects in particular territorial of Poland s socio economic transformation in the years 1990 2020 The analysis covers the key aspects of this transformation illustrated with references to the concepts and theories of development domestic and foreign literature own empirical research and existing or newly developed model approaches to transformation in the territorial dimension The book appeals to researchers and student in the fields of geography spatial management economics and business sociology and political sciences public and private economic research institutes employees of governmental bodies and corporations consultants in public administration journalists and policymakers

Poland and EU Enlargement J. Kaminska, 2014-11-26 This book analyzes changes in Polish foreign policy in the context of the EU membership exploring Poland s transition from a policy taker to policy maker It focuses on how Poland shapes EU policy towards the Eastern neighbors

Chasing Warsaw Monika Grubbauer, Joanna Kusiak, 2012-10 Warsaw is one of the most dynamically developing cities in Europe and its rich history has marked it as an epicenter of many modes of urbanism Tzarist modernist socialist and in the past two decades aggressively neoliberal Focusing on Warsaw after 1990 this volume explores the interplay between Warsaw s past urban identities and the intense urban change of the 90s and 00s Chasing Warsaw departs from the typical narratives of post socialist cities in Eastern Europe by contextualizing Warsaw s unique transformation in terms of both global change and the shifting geographies of centrality and marginality in contemporary Poland

Reinventing Poland Martin Myant, Terry Cox, 2008-03-03 The end of communism and accession to the European Union have had a huge impact on Poland This book provides an overall assessment of the post 1989 transformation in Poland It focuses in particular on four key themes economic transformation and its outcomes the heritage of the past and national identity regional development in Poland including the implications of EU accession for regional development and political developments both before and after EU accession In addition the book shows how changes in all these areas are related and emphasises the overall common themes The book is in memory of George Blazyca of the University of Paisley whose work on the political economy of transition in Poland is highly regarded

and who did a great deal to support the work of Polish academic colleagues and to promote the work of young scholars
