The Politics Of Childrens Rights Undercurrents Series:

Undercurrents of Divorce Shelley Day Sclater, Christine Piper, 2019-07-12 Published in 1999 Despite considerable comment about divorce reform and the post divorce family in the press and in academia by professionals and politicians much has been left unsaid There are undercurrents of divorce which are not visible and are not discussed because they do not fit into the dominant discursive framework for talk about divorce This book brings these undercurrents to the surface and does two things It explains how and why aspects of divorce and the lives of those divorcing have become marginalized in professional and political discussion and it makes visible the practical and legal effects of such exclusion It argues that there are good policy reasons for this particular socio legal critique at this time as the implementation of the Family Law Act 1996 gets underway

Understanding Corruption in Irish Politics Neil Collins, Mary O'Shea, 2000 Irish political life has experienced great turmoil in recent years because of the scale and intricacy of political corruption being uncovered by parliamentary and quasi judicial inquiries There is genuine popular amazement and growing cynicism towards the seemingly never ending wave of scandal and attendant tribunals To understand political corruption in Ireland this pamphlet examines the concept within a political science analytical framework that allows both historical and international comparison The book challenges the current explanations of political corruption particularly those that stress a turning away from a political golden age in the 1960s Understanding Political Corruption in Irish Politics chronicles political scandals in the 1990s looks at their causes and explains their consequences It also suggests reform strategies that will reduce the incentives drawing politicians towards corruption and increase the likelihood and expense of being detected

Supporting Children when Parents Separate Murch, Mervyn,2018-07-04 After years of research and reflection on the work of the interdisciplinary family justice system Mervyn Murch offers a fresh approach to supporting the thousands of children every year who experience a complex form of bereavement following parental separation and divorce This stressful family change combined with the loss of support due to austerity cuts can damage their education well being mental health and long term life chances Murch argues for early preventative intervention which responds to children s worries when they first present them without waiting until things have gone badly wrong His radical proposals for reform involve a much more coordinated and joined up approach by schools the Children and Family Court Advisory and Support Service and Child and Adolescent Mental Health Services This book encourages practitioners and academics to look outside their professional silos and to see the world through the eyes of children in crisis to enable services to offer direct support in a manner and at a time when it is most needed **Victorian Skin** Pamela K. Gilbert,2019-03-15 In Victorian Skin Pamela K Gilbert uses literary philosophical medical and scientific discourses about skin to trace the development of a broader discussion of what it meant to be human in the nineteenth century Where is subjectivity located How do we communicate with and understand each other s feelings How does our surface which contains us and presents us to others function and what does it signify As Gilbert shows for Victorians the skin was a text to be read Nineteenth century scientific and philosophical perspectives had reconfigured the purpose and meaning of this organ as more than a wrapping and instead a membrane integral to the generation of the self Victorian writers embraced this complex perspective on skin even as sanitary writings focused on the surface of the body as a dangerous point of contact between self and others Drawing on novels and stories by Dickens Collins Hardy and Wilde among others along with their French contemporaries and precursors among the eighteenth century Scottish thinkers and German idealists Gilbert examines the understandings and representations of skin in four categories as a surface for the sensing and expressive self as a permeable boundary as an alienable substance and as the site of inherent and inscribed properties At the same time Gilbert connects the ways in which Victorians read skin to the way in which Victorian readers and subsequent literary critics read works of literature and historical events especially the French Revolution From blushing and flaying to scarring and tattooing Victorian Skin tracks the fraught relationship between ourselves and our skin
