The Philosophy Of Magic The Occult Sciences Of Ancient Civilizations:

The occult sciences, the philosophy of magic, prodigies and apparent miracles. From the Fr., with notes, by A.T. Thomson
Anne Joseph Eusèbe Baconnière-Salverte, 1846 **Humanism and Renaissance Civilization** Charles G.

Nauert, 2023-04-21 The essays collected in this volume represent many years of Professor Nauert's research and teaching on the history of Renaissance humanism and more particularly on humanism north of the Alps. Much of the early work involved the significant but often overlooked history of humanism at the University of Cologne, notoriously the most anti-humanist of the German universities. Later essays deal with the most famous humanist of the early sixteenth century, Erasmus of Rotterdam, and natural philosophy, a broad term covering many subjects now associated with natural science. One of the topics of three of the pieces published here. Taken as a whole, the book presents a detailed study of intellectual development among European elites.

The Oxford Handbook of American and British Women Philosophers in the Nineteenth Century
Lydia Moland, John D. and Catherine T. MacArthur, Professor of Philosophy, Lydia Moland, Alison Stone, 2025. The Oxford Handbook of American and British Women Philosophers in the Nineteenth Century challenges the misconception that there were no female philosophers during this era. It explores the diverse philosophical contributions of women, including those who wrote academic texts, novels, pamphlets, journalism, and activist writings, and examines women's contributions to both philosophical movements and topics in social philosophy. It reveals that the nineteenth century was more conducive to women authors than commonly believed and discusses how factors like race and class influenced women's philosophical perspectives. The Handbook corrects the historical narrative and broadens our understanding of philosophy by showcasing the significant contributions of women philosophers.

Black Athena: The Afroasiatic Roots of Classical Civilization Volume I Martin Bernal, 2020-02-14. Winner of the 1990 American Book Award. What is classical about Classical civilization? In one of the most audacious works of scholarship ever written, Martin Bernal challenges the foundation of our thinking about this question. Classical civilization, he argues, has deep roots in Afroasiatic cultures. But these Afroasiatic influences have been systematically ignored, denied, or suppressed since the eighteenth century, chiefly for racist reasons. The popular view is that Greek civilization was the result of the conquest of a sophisticated but weak native population by vigorous Indo-European speakers, Aryans from the North. But the Classical Greeks, Bernal argues, knew nothing of this Aryan model. They did not see their institutions as original but as derived from the East, and from Egypt in particular. In an unprecedented tour de force, Bernal links a wide range of areas and disciplines: drama, poetry, myth, theological controversy, esoteric religion, philosophy, biography, language, historical narrative, and the emergence of modern scholarship.
