The Poems of John Dryden: 1686-1693 John Dryden, 1995 **Precarity and Loss** Tadeusz Rachwał, 2016-11-07 The book is devoted to social and political interdependencies of life and work the interdependencies in which the ideas of loss and deprivation are the

founding incentives of the precariousness of the position and the status of the human subject Loss of property in the economic sense along with the loss of properties in epistemological terms have become a crucial measure of precarity through its dissociation from what Judith Butler calls the organization and protection of bodily needs The book offers a proposition of multidisciplinary reading of origins and constructions of anxiety of loss as a constitutive trait of what may be called the economization or after Jean Pierre Dupuy economystifacion of human condition through various discursive practices tying loss with lack and in this way making the uncertainty of possessing certain properties into a sphere of politically controlled semi ontological anxieties The book also reads loss in terms of topographical disorientation and the idea of placelessness

The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

Voice and Context in Eighteenth-Century Verse Allan Ingram,Joanna Fowler,2016-04-29 This collection of essays reassesses the importance of verse as a medium in the long eighteenth century and as an invitation for readers to explore many of the less familiar figures dealt with alongside the received names of the standard criticism of the period

Books in Print Supplement ,2002

Literary Milieux David Womersley,Richard Anthony McCabe,2008 The essays range from Shakespeare and early modern literature to Wordsworth They evince scrupulous care over the handling of evidence an interdisciplinary impulse yoked always to a prizing of the literary particularly the poetic a willingness to embrace an ambitious argument where it can be supported a humaneness of temper particularly in polemic Latent within them all is a wrestling with the central problem of text and context
