The Politics Of Child Abuse:

The Politics of Child Abuse in America Lela B. Costin, Howard Jacob Karger, David Stoesz, 1997-02-27 Child abuse policy in the United States contains dangerous contradictions. The rapidly expanding child abuse industry made up of enterprising psychotherapists and attorneys consumes enormous resources while thousands of poor children are seriously injured or killed many while under the protection by public agencies. Meanwhile the public child abuse system has become a virtual nonsystem marked by a staggering turnover of staff, unmanageable caseloads, a severe shortage of funding and caseloads composed of highly dysfunctional families. In *The Politics of Child Abuse in America* the authors argue that child abuse must be viewed as a public safety problem and that children must have the same legal protection as physically and sexually abused women. By creating a Children's Authority, proposes the author, this group would have the overall responsibility of protecting children. Offering a unique perspective on the cold reality of this crisis, *The Politics of Child Abuse in America* will be a provocative work for social workers and human service personnel as well as the general reader concerned with this timely issue.

The Politics of Child Abuse Nigel Parton, *The Politics of Child Abuse in America* Lela B. Costin, Howard Jacob Karger, David Stoesz, 1997-02-27 Child abuse policy in the United States contains dangerous contradictions which have only intensified as the public slowly accepted it as a middle class problem. One contradiction is the rapidly expanding child abuse industry made up of enterprising psychotherapists and attorneys which is consuming enormous resources while thousands of poor children are seriously injured or killed many while being protected by public agencies. This rediscovery has also led to the frenzied pursuit of offenders resulting in the sacrifice of some innocent people. Moreover the media's focus on the sensational details of high visibility sexual abuse cases has helped to trivialize if not commercialize the child abuse problem. As such child abuse has gone from a social problem to a social spectacle. By the 1980s the child welfare system had become a virtual nonsystem marked by a staggering turnover of staff, unmanageable caseloads, a severe shortage of funding and caseloads composed of highly dysfunctional families many with drug related problems. To make room for these families public agencies rationed services by increasingly screening out child abuse reports which contained little likelihood of serious bodily harm. In *The Politics of Child Abuse in America* the authors argue that child abuse must be viewed as a public safety problem. This redefinition would make it congruent with other family based social trends including the crackdown on domestic violence. Children must have the same legal protection currently extended to physically and sexually abused women. This can be done by creating a Children's Authority which would have the overall charge for protecting children. Specifically Children's Authorities would have the responsibility for providing the six main functions of child protection: investigation, enforcement, placement services, prevention and education, family support and research and development. Offering a unique perspective on the cold reality of this crisis, *The Politics of Child Abuse in America* will be a provocative work for social workers and human service personnel as well as the general reader concerned with this timely
