Sir Hans Singer:

Sir Hans Singer D. Shaw, 2002-06-25 This is the first biography of a world famous pioneering development economist Sir Hans W Singer who is better known throughout the developing world than any other economist living or dead It gives a detailed account of the way in which the twists of fate led him to becoming a leading development economist It contains a thematic synthesis of all his major theoretical and conceptual work and of the many initiatives in which he has been involved to solve the problems of developing countries Sir Hans Singer The Life And Work Of A Development Economist D. John Shaw, 2004-09-01 **The Pioneers of Development Economics** Jomo Kwame Sundaram, 2005-09 A survey of the main influences on the development of modern development economics **Development Economics and Policy** David Sapsford, John-ren Chen, 1998-08-10 Hans Singer is undoubtedly one of if not the world's major scholars in the field of Development Economics Over the last six decades he has made numerous contributions to the subject both as scholar and practitioner This book contains 27 essays that were prepared for a conference that was held in Innsbruck Austria in May 1996 to celebrate his 85th birthday and represents a major and important overview of issues in development economics from the most eminent scholars in the field **International Development Co-operation** H. Singer, 2001-06-26 As one of the most pioneering development economists Hans Singer has stimulated many of the ideas that have engaged the attention of the world community for several decades Not only has he helped to form an understanding of the problems of developing countries but he has also shown what might be done to solve them This collection brings together for the first time key essays on the issues underlying food aid and the development of the UN These are grouped into five areas postwar development experience reform of the United Nations debt and debt servicing structural adjustment and stabilization and food aid Growth, Development, and Trade Hans Wolfgang Singer, 1998 This volume contains 21 selected essays by Professor Sir Hans Singer written over the last two decades The volume addresses development economics in historical perspective and considers where it stands today the early pioneers of development thinking including Smith and Keynes growth industrialization and trade current questions of the terms of trade debate and import substitution North South and South South linkages foreign aid The author gives grateful thanks to Matthew Morris and Hans Ulrich Esslinger for their contributions to this book *Development Economics and Policy* David Sapsford, John-ren Chen, 1998-08-10 Hans Singer is undoubtedly one of if not the world's major scholars in the field of Development Economics Over the last six decades he has made numerous contributions to the subject both as scholar and practitioner This book contains 27 essays that were prepared for a conference that was held in Innsbruck Austria in May 1996 to celebrate his 85th birthday and represents a major and important overview of issues in development economics from the most eminent scholars in the field *The Life and Times of Raúl Prebisch, 1901-1986* Edgar J. Dosman, 2008-10-24 Raúl Prebisch was a leader in economic development theory and international economic policy an institution builder and an international diplomat The Life and Times of Raúl

Prebisch provides the first book length account of his life and work a story cast against the backdrop of Latin America the Cold War the rise of the United Nations and the struggle for equity between first and third worlds A wunderkind Prebisch occupied key positions at the Argentine ministry of finance in his twenties and was the general manager of the Argentine Central Bank before forty Exiled by Juan Peron after World War II he became arguably the most influential Latin American official at the UN heading such international organizations as the Economic Commission for Latin America and the United Nations Conference on Trade and Development *Routledge Encyclopedia of International Political Economy* R. J. Barry Jones,2002-09-11 This three volume Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in the study of the international political economy **The Gypsy Economist** Alex Millmow,2021-03-11 This book offers the first intellectual biography of the Anglo Australian economist Colin Clark Despite taking the economics world by storm with a mercurial ability for statistical analysis Clark s work has been largely overlooked in the 30 years since his death His career was punctuated by a number of firsts He was the first economist to derive the concept of GNP the first to broach development economics and to foresee the re emergence of India and China within the global economy In 1945 he predicted the rise and persistence of inflation when taxation levels exceeded 25 per cent of GNP And he was also the first economist to debunk post war predictions of mass hunger by arguing that rapid population growth engendered economic development Clark wandered through the fields of applied economics in much the same way as he rambled through the English countryside and the Australian bush His imaginative wanderings qualify him as the eminent gypsy economist for the 20th century **Routledge Encyclopedia of International Political Economy: Entries P-Z** R. J. Barry Jones,2001 This important new work is the first comprehensive reference to the rapidly developing field of international political economy IPE Featuring over 1200 A Z entries the coverage encompasses the full range of issues concepts and institutions associated with IPE in its various forms Comprehensively cross referenced and indexed each entry provides suggestions for further reading along with guides to more specialized sources Selected entries include African Development Bank benign neglect Black Monday casino capitalism debt management efficiency floating exchange rates General Agreement on Tariffs and Trade GATT information society economy Organization of Petroleum Exporting Countries OPEC Microsoft multinational corporations definitions NATO patents rent seeking Schellin Thomas tax havens trusts Value Added Tax VAT zero sum games and many more *Fifty Key Thinkers on Development* David Simon,2006-05-02 The

essential guide to the world's most influential development thinkers this authoritative text presents a unique guide to the lives and ideas of leading contributors to the contested terrain of development studies Reflecting the diverse interdisciplinary nature of the area the book includes entries on modernisers like Hirshman Kindleberger and Rostow dependencistas such as Frank Cardoso and Amin progressives like Prebisch Helleiner and Streeten political leaders enunciating radical alternative visions of development such as Mao Nkrumah and Nyerere progenitors of religiously or spiritually inspired development such as Gandhi and Ariyaratne development environment thinkers like Blaikie Brookfield and Shiva This is a fascinating and readable introduction to the major figures that have shaped the field ideal for anyone studying or working in the area

The Feminist Economics of Trade Irene van Staveren, Diane Elson, Caren Grown, Nilufer Cagatay, 2012-08-06

Unravelling the complex relationship between gender inequality and trade this is the first book to combine the tools of economic and gender analysis to examine the relationship between international trade and gender relations It brings together fourteen contributions from a variety of economic perspectives including structuralist institutionalist neoclassical and Post Keynesian by a range of authors including Lourdes Bener a William Darity Marzia Fontana and Mariama Williams to demonstrate what feminist economics has contributed to the analysis of international trade through theoretical modelling econometric analysis and policy oriented contributions It includes evidence from industrialized semi industrialized and agrarian economies using country case studies and cross country analysis Arguing that trade expansion and reduction of gender inequality can be combined but only if an appropriate mix and sequence of trade and other economic policies is implemented this book is key reading for all students of international economics gender and cultural studies and politics and international relations amongst other disciplines World Food Security D. Shaw, 2007-09-28 This book is the first

comprehensive account of the numerous attempts made since the Second World War to provide food security for all It provides a reference source for all those involved and interested in food security issues *Economic Careers* Keith Tribe, 2002-09-11 In this volume fourteen senior economists describe their early introduction to the study of economics and their contribution to the development of academic economics in Britain With experience covering a period stretching from the mid 1920s to the late 1960s many of the contributors not only provide an insight into the role of university disciplines in the education system but describe their experience in wartime administration or as government advisors The interview format of the work makes for accessibility and readability in a sometimes arcane area of work The UN World Food Programme and the Development of Food Aid D. Shaw, 2001-05-17 This is the first history to be written of the World Food Programme WFP the food aid arm of the United Nations System It tells the story of the antecedents and origins of WFP and growth from modest beginnings as a three year experiment in 1963 65 to become the main source of international food aid for both disaster relief and development against the background of the evolution and development of food aid This dual role has put WFP in the front line of the United Nations attack on poverty hunger and food insecurity **International**

Competitiveness, Investment and Finance A Ganesh-Kumar, Kunal Sen, Rajendra Vaidya, 2003-09-02 Using India as a case study this well written concise book covers everything one needs to know to understand how a country becomes internationally competitive Showing that reforms that pertain to the real sector alone such as industrial deregulation and trade reforms are not enough to enhance a country's competitiveness this book makes a compelling case for complimentary financial sector reforms Of interest to academics studying international trade industrial economics and development economics this book is also guaranteed to be extremely useful for professional economists and those involved with policy making in developed and developing countries

Trade Policy, Inequality and Performance in Indian Manufacturing Kunal Sen, 2009 The relationship between trade policy and economic performance is one of the oldest controversies in economic development In recent years there has been a revival of interest in the debate on the implications of trade reforms for productivity growth and domestic pricing behaviour due in part to the current phase of wide spread trade liberalisation in developing countries and in part to developments in economic theory notably endogenous growth theories and theories of imperfect competition Also there has been considerable interest in whether trade reforms can lead to higher wage inequality and regional inequality in developing countries Both in academic and policy arenas the interest in international trade as a powerful positive force for reducing poverty in low income countries has increased In this book the author examines the implications of trade reforms with specific reference to the Indian manufacturing sector In particular it explores the evolution of regional and wage inequality employment productivity and prices from the import substitution phase of the 1970s to the period of radical reforms of the 1990s The strength of the book is the careful and systematic examination of the various aspects of the trade development nexus using rigorous empirical methods and a detailed data set of Indian industries from 1975 to 2000 Economists in general and South Asian scholars in particular will find this thorough study interesting and useful

Encyclopedia of International Development Tim Forsyth, 2018-10-24 International development is now a major global activity and the focus of the rapidly growing academic discipline of development studies The Encyclopedia of International Development provides definitions and discussions of the key concepts controversies and actors associated with international development for a readership of development workers teachers and students With 600 entries ranging in length from shorter factual studies to more in depth essays a comprehensive system of cross references and a full index it is the most definitive guide to international development yet published Development is more than a simple increase in a country's wealth and living conditions It also implies increasing people's choices and freedoms it is change that is inclusive and empowering Development theory and practice has important applications to questions of economic growth trade governance education healthcare gender rights and environmental protection and it involves issues such as international aid peacekeeping famine relief and strategies against HIV AIDS The Encyclopedia treats these topics and many more and provides critical analyses of important actors within development such as the United Nations and World Bank non

governmental organizations and corporations Contributors to this volume reflect the multidisciplinary and international nature of the subject They come from social science disciplines such as economics international studies political science and anthropology and from specialities such as medicine This Encyclopedia provides crucial information for universities students and professional organizations involved with international development and those interested in related topics such as international studies or other studies of social and economic change today

Key Thinkers on Development David Simon, 2019-04-02 Since its publication in 2006 as *Fifty Key Thinkers on Development* this invaluable reference has established itself as the leading biographical handbook in its field providing a concise and accessible introduction to the lives and key contributions of development thinkers from across the ideological and disciplinary spectrum This substantially expanded and fully updated second edition in the relaunched series without the numerical constraint includes an additional 24 essays filling in many gaps in the original selection greatly improving the gender balance and diversifying coverage to reflect the evolving landscape of development in theory policy and practice It presents a unique guide to the lives ideas and practices of leading contributors to the contested terrain of development studies and development policy and practice Its thoughtful essays reflect the diversity of development in theory policy and practice across time space disciplines and communities of practice Accordingly it challenges Western centrism Orientalism and the like while also demonstrating the enduring appeal of development in different guises David Simon has assembled a highly authoritative team of contributors from different backgrounds regional settings and disciplines to reflect on the lives and contributions of leading authorities on development from around the world These include Modernisers like Kindleberger Perroux and Rostow Dependencistas such as Frank Furtado Cardoso and Amin Progressives and critical modernists like Hirschman Prebisch Helleiner Sen Streeten and Wang Political leaders enunciating radical alternative visions of development such as Mao Nkrumah and Nyerere Progenitors of religiously or spiritually inspired development such as Gandhi Ariyaratne and Vivekananda Development environment thinkers like Agarwal Blaikie Brookfield Ostrom and Sachs International institution builders like Singer Hammarstrand Kaul and Ul Haq Anti and post development thinkers and activists like Escobar Ghosh Quijano and Roy

Key Thinkers on Development is therefore the essential handbook on the world's most influential development thinkers and an invaluable guide for students of development and sustainability policy makers and practitioners seeking an accessible overview of this diverse field and its leading voices
