including interviews with numerous friends and colleagues of Jakes to examine both Jakes's rise to prominence and proliferation of a faith industry bent on producing spiritual commodities for mass consumption Lee frames Jakes and his success as a metaphor for changes in the Black Church and American Protestantism more broadly looking at the ramifications of his rise and the rise of similar preachers for the way in which religion is practiced in this country how social issues are confronted or ignored and what is distinctly American about Jakes's emergence While offering elements of biography the work also seeks to shed light on important aspects of the contemporary American and African American religious experience Lee contends that Jakes's widespread success symbolizes a religious realignment in which mainline churches nationwide are in decline while innovative churches are experiencing phenomenal growth He emphasizes the American-ness of Jakes's story and reveals how preachers like Jakes are drawing followers by delivering therapeutic and transformative messages and providing spiritual commodities that are more in tune with postmodern sensibilities As the first work to critically examine Bishop Jakes's life and message *T D Jakes* is an important contribution to contemporary American religion as well as popular culture

Unlikely Entrepreneurs Barbra Mann Wall, 2005 In *Unlikely Entrepreneurs* Barbra Mann Wall looks at the development of religious hospitals in the late nineteenth and early twentieth centuries and the entrepreneurial influence Catholic sisters held in this process When immigrant nuns came to the United States in the late nineteenth century they encountered a market economy that structured the way they developed their hospitals Sisters enthusiastically engaged in the market as entrepreneurs but they used a set of tools and understanding that were counter to the market Their entrepreneurship was not to expand earnings but rather to advance Catholic spirituality Wall places the development of Catholic hospital systems located in

Illinois Indiana Minnesota Texas and Utah owned and operated by Catholic sisters within the larger social economic and medical history of the time In the modern health care climate with the influences of corporations federal laws spiraling costs managed care and medical practices that rely less on human judgments and more on technological innovations the modern hospital reflects a dim memory of the past This book will inform future debates on who will provide health care as the sisters depart how costs will be met who will receive care and who will be denied access to health services Images Of Devotion
