Site Matters Andrea Kahn,Carol J. Burns,2020-12-21 In the era of the Anthropocene site matters are more pressing than ever Building on the concepts theories and multi disciplinary approaches raised in the first edition this publication strives to address the changes that have taken place over the last 15 years with new material to complement and re position the initial volume Reaching across design disciplines this highly illustrated anthology assembles essays from architects landscape architects urban designers planners historians and artists to explore ways to physically and conceptually engage site Thoughtful discourse and empirically grounded pieces combine to provide the language and theory to contextualize the meanings of site in the built environment The increasingly complex hybridity of constructed environments today demands new tools for thinking about and working with site Drawing contributions from outside and within the traditional design disciplines this edition will trace important developments in site thinking with new essays on topics such as climate change landscape as infrastructure shifts from global to planetary urbanization debates and the proliferation of participatory site transformation practices Edited by two leading practitioners and academics Site Matters juxtaposes timeless contributions from individuals including Elizabeth Meyer Robert Beauregard and Robin Dripps with original new writings from Peter Marcuse Jane Wolff Neil Brenner and Thaisa Way amongst others to recontextualize and reignite the debate around site An ideal text for students academics and researchers interested in site and design theory

How the Page Matters Bonnie Mak,2011-01-01 From handwritten texts to online books the page has been a standard interface for transmitting knowledge for over two millennia It is also a dynamic device readily transformed to suit the needs of contemporary readers In How the Page Matters Bonnie Mak explores how changing technology has affected the reception of visual and written information Mak examines the fifteenth century Latin text Controversia de nobilitate in three forms as a manuscript a printed work and a digital edition Transcending boundaries of time and language How the Page Matters connects technology with tradition using innovative new media theories While historicizing contemporary digital culture and asking how on screen combinations of image and text affect the way conveyed information is understood Mak s elegant analysis proves both the timeliness of studying interface design and the persistence of the page as a communication mechanism

Beauregard, 2015-11-03 City and regional planners talk constantly about the things of the world from highway interchanges and retention ponds to zoning documents and conference rooms yet most seem to have a poor understanding of the materiality of the world in which they re immersed Too often planners treat built forms weather patterns plants animals or regulatory technologies as passively awaiting commands rather than actively involved in the workings of cities and regions In the ambitious and provocative Planning Matter Robert A Beauregard sets out to offer a new materialist perspective on planning practice that reveals the many ways in which the nonhuman things of the world mediate what planners say and do Drawing on actor network theory and science and technology studies Beauregard lays out a framework that acknowledges the inevitable insufficiency of our representations of reality while also engaging more holistically with the world in all of its diversity including human and nonhuman actors alike *The Code of Federal Regulations of the United States of America* , 2004 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government **Code of Federal Regulations** , 2000 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **Federal Register** , 2003-07-03 **Dialectics of Space and Place across Virtual and Corporeal Topographies** June Jordaan, Carl Haddrell, Christine Alegria, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Dialectics of Space and Place across Virtual and
