Pollack,2015-01-18 Visual Art and the Urban Evolution of the New South recounts the enormous influence of artists in the evolution of six southern cities Atlanta Charleston New Orleans Louisville Austin and Miami from 1865 to 1950 In the decades following the Civil War painters sculptors photographers and illustrators in these municipalities employed their talents to articulate concepts of the New South aestheticism and Gilded Age opulence and to construct a visual culture far beyond providing pretty pictures in public buildings and statues in city squares As Deborah C Pollack investigates New South proponents such as Henry W Grady of Atlanta and other regional leaders she identifies cultural strivers philanthropists women s organizations entrepreneurs writers architects politicians and dreamers who united with visual artists to champion the arts both as a means of cultural preservation and as mechanisms of civic progress Aestheticism made popular by Oscar Wilde s southern tours during the Gilded Age was another driving force in art creation and urban improvement Specific art works occasionally precipitated controversy and incited public anger yet for the most part artists of all kinds were recognized as providing inspirational incentives for self improvement civic enhancement and tourism art appreciation and personal fulfillment through the love of beauty Each of the six New South cities entered the late nineteenth century with fractured artistic heritages Charleston and Atlanta had to recover from wartime devastation The infrastructures of New Orleans and Louisville were barely damaged by war but their social underpinnings were shattered by the end of slavery and postwar economic depression Austin was not vitalized until after the Civil War and Miami was a post Civil War creation Pollack surveys these New South cities with an eye to understanding how each locale shaped its artistic and aesthetic self perception across a spectrum of economic political gender and race issues She also discusses Lost Cause imagery present in all the studied municipalities While many art history volumes concerning the South focus on sultry landscapes outside the urban grid Visual Art and the Urban Evolution of the New South explores the art belonging to its cities whether exhibited in its museums expositions and galleries or reflective of its parks plazas marketplaces industrial areas gardens and universities It also identifies and celebrates the creative urban humanity who helped build the cultural

and social framework for the modern southern city *American Art Annual* ,1848 **Living Architecture** James F. Dictionary of American Naval Fighting Ships: Historical sketches ,1969 **Historic Preservation** Michael A. Tomlan,2014-11-21 This well illustrated book offers an up to date synthesis of the field of historic preservation cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program **The Sketch Book Magazine** ,1928 **Historical Sketch of the Town of Weymouth, Massachusetts, from 1622-1884** Gilbert Nash,1885 *Images of Sex Work in Early Twentieth-Century America* Mollie LeVeque,2019-04-18 Storyville was the infamous red light district of New Orleans It was a world where normative social values didn t apply and was shrouded in mystery and myth until the photographs of E J Bellocq were rediscovered Bellocq s depictions of Storyville s sex workers have typically been treated as tragic ominous and emblematic of New Orleans singularity Yet such interpretations have projected gendered stereotypes of frailty and victimhood onto the women they portrayed In *Images of Sex Work* Mollie LeVeque interrogates these glib readings and

argues that sex work was a routine aspect of life in a modern city. She supports this theory by examining a range of cultural forms such as crime fiction illustrations and paintings from contemporary urban centres like Paris, London and New York. In doing so, she advances the new argument that Bellocq humanised his subjects, de-sensationalised sex work and gave these women the dignity they were all too often denied.
