cultural continuity that reaches back and builds on the city's rich musical and cultural traditions. In this book the popular music scholar and filmmaker Matt Miller explores the ways in which participants in New Orleans's hip hop scene have collectively established, contested, and revised a distinctive style of rap that exists at the intersection of deeply rooted vernacular music traditions and the modern globalized economy of commercial popular music. Like other forms of grassroots expressive culture in the city, New Orleans rap is a site of intense aesthetic and economic competition that reflects the creativity and resilience of the city's poor and working class African Americans. Manthropology Peter McAllister, 2010-10-26 Manthropology is the first of its kind. Spanning continents and centuries, it is an in-depth look into the history and science of manliness. From speed and strength to beauty and sex appeal to bravado and wit, it examines how man today compares to his masculine ancestors. Peter McAllister set out to rebut the claim that man today is suffering from feminization and emasculation. He planned to use his skills as a paleoanthropologist and journalist to write a book demonstrating unequivocally that man today is a triumph, the result of a hard-fought evolutionary struggle toward greatness. As you will see, he failed. In nearly every category of manliness, modern man turned out to be not just matched but bested by his ancestors. Stung, McAllister embarked on a new mission. If his book couldn't be a testament to modern male achievement, he decided it would be a record of his failures. Manthropology then is a globe-spanning tour of the science of masculinity. It kicks off in Ice Age France where a biomechanical analysis demonstrates that La Ferrassie 2, a Neanderthal woman discovered in the early 1900s, would cream 2004 World Arm Wrestling Federation champion Alexey Voyevoda in an arm wrestle. Then it moves on to medieval Serbia, showing how Slavic guslar poets, who were famously able to repeat a two-thousand-line verse after just one hearing, would have destroyed Curtis Jackson (aka 50 Cent) in a battle rap. Finally, it takes the reader to the steaming jungles of modern equatorial Africa where Aka Pygmy men, such super dads, they even grow breasts to suckle their children. Now that's commitment. For modern man, the results of these investigations aren't always pretty. But in its look at the history of men, Manthropology is unfailingly smart, informative, surprising, and entertaining.

Cultivating Dialogue, Language, and Literacy for Social Justice in Teacher Education Adam Devitt, 2025-07-22 Within sociocultural traditions, language, dialogue, and social literacies play an institutional role in learning and human development. Discourse practices, however, go far beyond the traditional focus of using speaking and listening to support the learning of content knowledge. Teacher discourse practices ought to promote critical literacies and linguistic practices and promote anti-racism and social and environmental justice. Classroom discourse, however, is missing from teacher education programs on a large scale in these significant ways. Teacher educators need to understand the social and political policies, pedagogical role, and multitude of practices for helping pre-service teachers and teacher practitioners learn to acquire and facilitate quality discursive practices in K-12 schools and understand related pedagogy. This book, *Cultivating Dialogue, Language, and Literacy for Social Justice in Teacher Education*, offers a variety of models for integrating discourse

practices and pedagogies into the field of teacher education including pre service teaching professional development and even critiques on policy and subsequent affordances and consequences that inhibit or promote the quality of teacher discourse and the purposes for which teachers utilize classroom discourse I would recommend this book for teacher education programs as well as professional developers who work with pre and in service teachers Additionally I recommend this book for researchers committed not only to classroom discourse analysis but to promote speaking and listening among teachers and students in ways that enhance learning and development Official Gazette of the United States Patent and Trademark Office ,1981 *A Companion to Sport* David L. Andrews,Ben Carrington,2013-09-10 *A Companion to Sport* brings together writing by leading sports theorists and social and cultural thinkers to explore sport as a central element of contemporary culture Positions sport as a crucial subject for critical analysis as one of the most significant forms of popular culture Includes both well known social and cultural theorists whose work lends itself to an interrogation of sport and leading theorists of sport itself Offers a comprehensive examination of sport as a social and cultural practice and institution Explores sport in relation to modernity postcolonial theory gender violence race disability and politics Intolerant Justice Asif Efrat,2023 The idea of facing a court in a foreign country would typically cause serious doubt about whether the foreign legal process and its outcome would be fair *Intolerant Justice* examines the political implications of those doubts regarding foreign justice and how they might hinder international cooperation among national legal systems Should we allow our troops to stand trial in foreign courts Should we extradite offenders to countries with a poor human rights record Should we enforce rulings issued by foreign judges This book examines the domestic political controversies over these sensitive legal questions
