Sleep With The Fishes:

Sleep with the Fishes Brian M. Wiprud, 2006-09-26 Wiseguy Sid Sleep Bifulco doesn't need no stinkin witness protection program. The mobster turned snitch who always put his victims gently to sleep before whacking them did his prison time and now has a new rural hideaway and a new avocation: trout fishing in a scenic river valley. Except that a bunch of local yokels won't leave him alone. From a sexy trout dealer in crimson hiking boots to a cop married to a pregnant porn star, everybody in this little town has an angle, a grudge, or a crush on somebody. And Sid needs to figure out these yahoos fast because with a vicious Mafia killer on his trail, a warden on his doorstep, and a highly incriminating videotape making the rounds, it turns out that the simple life isn't so simple after all.

Reaching God Speed Joe Kovacs, 2022-01-25. The answer is surprising, and what we're about to learn will wake us up to a reality most of us never knew existed. The reason we're so oblivious is because we've all been operating at human speed, relying on our own physical power and our five senses. But there is something extremely important we've all been missing. It holds the key to everything good: the key to life, success, happiness, peace of mind, and understanding beyond our wildest imagination. It's perhaps the best-kept secret in the history of mankind, and it packs a staggering invigorating message that can change your life for the better, improving understanding, eliminating anxiety, and helping to extend your living years indefinitely. All we have to do is open our eyes and ears. We're all inundated with this secret at all times. It's present in our favorite songs and movies, the stories we tell our children, and even in every commercial campaign. The secret is broadcast in famous news stories, including the coronavirus pandemic, the sinking of the Titanic, or the collapse of the World Trade Center on 9/11. It's in ordinary life activities such as breathing, sleeping, waking up, traveling, sex, and getting married, and changing one's name. Now bestselling author and award-winning journalist Joe Kovacs reveals the solution, cracking the divine code that shifts our minds from operating at slow human speed and making the jump to the incredibly quick God speed. Hundreds of ancient mysteries and prophecies are instantly unsealed as the master key that unlocks the mystery of everything is now in your hands.

Fish Behavior in the Aquarium and in the Wild Stephan Reeb, 2018-08-06. A home aquarium seems a peaceful place. Gazing at its inhabitants as they swim slowly through their small universe is a soothing, even hypnotic experience. But this seeming tranquillity is only surface deep. Like their wild counterparts, these tiny glittering beings exhibit a wide array of fascinating behaviors. Stephan Reeb provides a delightfully entertaining yet scientifically grounded look at what fishes do and how they do it. From defending their young to seeking out the perfect sexual partner to telling time, fishes display a variety of behaviors that may not be readily apparent to the casual observer. Reeb not only describes the behaviors but also outlines simple

experiments that can be performed by observers wishing to learn for themselves just how resourceful and bizarre these creatures can be How Fish Behave introduces us to damselfishes that sing like birds elephantfishes that communicate electrically and sticklebacks that deceive other fish into believing they have found food Drawing on the experimental evidence behind such intrinsically interesting responses Reeb's demonstrates how science is conducted in the field of animal behavior
