**The Art of Discovery** Margareth

Hagen,Randi Koppen,Margery Vibe Skagen,2010-08-30 This anthology brings together scholars from literature the natural sciences and the philosophy of science to present new perspectives on the relations between literary and scientific communities Drawing on literature spanning the 19th and 20th centuries as well as Europe and the Americas the authors explore how science has been portrayed from the perspective of literature at different times and in different places as challenge or opportunity promise or scandal The disturbance of science emanates perhaps from its association with a frightening future or its ability to change the appearance of the past the scandal occurs as it recalls us to thresholds and hybrids human and non human animal and machine Science however also emerges as a source of metaphor and imaginative modelling of encodings and decodings representations and discoveries Less prominent in the collection though no less important is the view on how scientific cultures portray literature or the literary academic and how science reflects on itself

*The Wanting Way* Adam Wolfond,2022-11-08 In *The Wanting Way* the second book in Multiverse a literary series written and curated by the neurodivergent Adam Wolfond proves more than willing to extend the choreography In fact his entire

thrust is out and toward Each poem moves out along its own underutilized pathway awakening unseen dimensions for the reader like a wooded night walk suddenly lit by fireflies And as each path elaborates itself Wolfond s guiding hand seems always to stay held out to the reader inviting them further into a shared and unprecedented unfolding The Wanting Way is actually a confluence of diverse ways rallies paths waves jams streams desire lines that converge wherever the dry verbiage of the talking world requires hydration Each poem is an invitation to bathe in the play of languaging And each poem is an invitation to a dance that s already happening called into motion by the objects and atmospheres of a more than human world Wolfond makes space for new poetics new choreographies and new possibilities toward forging a consensual felt and feeling world where we might find free disassembly and assembly together There is a neurodivergent universe within this one and Wolfond s poems continuously pull back the unnecessary veil between human and nature

American Avant-Garde Cinema's Philosophy of the In-Between Rebecca A. Sheehan,2020-03-09 Can films philosophize rather than simply represent philosophical ideas developed outside of the cinematic medium Taking up this crucial question for the emergent field of film philosophy American Avant Garde Cinema s Philosophy of the In Between argues that the films of the American avant garde do in fact do philosophy and illuminates the ethical stakes of their aesthetic interventions Author Rebecca A Sheehan contends that American avant garde cinema s characteristic self reflexivity is an interrogation of the modes and stakes of our engagement with the world on and beyond the screen The book demonstrates this with the theory of the in between a pervasive figure that helps clarify how avant garde cinema s reflections on the creation of images construct an ethics of perception itself a responsibility to perpetuate thought in an enduring re encounter with the world and with meaning s unfinished production The book is structured by a taxonomy of the multiple in betweens evident in American avant garde filmmaking Rather than systematically seeking reproductions of particular philosophers ideas in avant garde films Sheehan derives categories of analysis and the philosophical claims they disclose from close readings of the films themselves This methodology opposes mapping preconfigured philosophical concepts and values onto these films as too many philosophical approaches to cinema have done silencing the philosophies uniquely articulated by these films in the interest of making them ventriloquize philosophies advanced elsewhere The chapters of this book trace three modes of the in between that function philosophically in American avant garde cinema the material the dimensional and the conceptual Although the chapters are organized around discrete aesthetic and philosophical preoccupations that unify several filmmakers these three presentations of the in between cut through all the chapters allowing the subjects of each to converse over the course of the book

*Calico: Children of the Shawnee* Allison Bruning,2013-06-05 Myth, Language and Tradition Wit Píetrzak,2011-05-25 How can poetry embrace morality through focusing on metaphrasts What is the relation between an allummette and the alpha rhythm How come that money has turned into a metonym of goodness And above all is it still possible to think of the human subject as a viable category in late modernity These are some of the questions that J H Prynne

s poetry deals with Levity of Design voices a critique of the present day society very much from within and demonstrates how Prynne has contrived to single handedly overcome the impasse created by the legacy of poststructuralism In a milieu of avant garde linguistic experiment developed from modernist techniques of Pound and Olson but also the early Eliot as well as Velimir Khlebnikov and against the background of the writings of Heidegger and Adorno these poems are demonstrated to seek a language in which the notion of man can be restituted **On Frost** Edwin Harrison Cady, Louis J.
