language used underrepresented populations and large dropout rates from pathways have magnified the potential flaws of existing organisational structures and settings Moreover despite both the professionalisation of talent development pathways and growing research attention we still know little about the characteristics that facilitate accurate recruitment strategies into pathways and long term development outcomes Talent Identification and Development in Youth Soccer provides an all encompassing guide for both researchers and practitioners by gathering the existing literature to help better understand the current context of this discipline Chapters are contributed by a team of leading and emerging international experts examining topics such as technical tactical physical psychological social activities and trajectories career transitions relative age effects creativity and genetics with each chapter offering important considerations for both researchers and practitioners With a dual emphasis on both theory and practice this book is an important text for any student researcher coach or practitioner with an interest in talent identification talent development youth soccer soccer coaching or expertise and skill acquisition

Researching Disability Sport Ben Powis, James Brighton, P. David Howe, 2022-12-12 Marking a new direction for disability sport scholarship this book explores cutting edge issues and engages creatively with contemporary approaches to research in this important emerging discipline Featuring contributions from leading and up and coming scholars around the world the book's wide ranging chapters offer novel perspectives on the relationship between theory method and empiricism in disability sport research and highlight how researchers can be both innovative and informed when entering the field It also explores methodological considerations when conducting disability sport research including social cultural and political reflections of the research process from disabled and non disabled academics This much needed resource supports disability sport scholars in developing a conceptual grounding in the subject and establishes a space for intersectional accounts of sport and physical activity which challenge homogenous understandings of disability This book is essential reading for any student or researcher working in disability sport adapted physical activity or adapted physical education and a valuable reference for anybody with an interest in the sociology of sport disability studies cultural studies the body or research methodology

I Will Scream to the World Jaha Marie Dukureh, 2024-12-24 This extraordinary memoir details the monumental journey of one young Gambian woman from survivor of FGM and forced child marriage to global activist and political leader who became UN Women's first Goodwill Ambassador for Africa one of Time Magazine's 100 Most Influential People and among the youngest people nominated for the Nobel Peace Prize On the wedding night of her first arranged marriage fifteen year old Jaha learned that she had undergone Female Genital Mutilation FGM as an infant That painful discovery coupled with her experiences with a second arranged marriage set Jaha on her path as an activist a courageous mission that would require her to brave hostility in her community and family and even attempts on her life Despite the challenges and with ever growing determination Jaha founded Safe Hands for Girls an organization that succeeded in having FGM banned in Gambia She is now working to eradicate FGM and forced child marriage worldwide by 2030 and running to

be the next President of The Gambia I Will Scream to the World recounts Jaha's ongoing uphill journey to be seen as a survivor activist but most of all as a human. She dives into her childhood to show the root causes of her crusading, shares her personal and professional life and explores as only a survivor can a practice that while violent and troubling is often culturally misunderstood. Above all, Jaha's unflinchingly honest memoir is a story of resilience and extraordinary fearlessness of the strength that comes with learning to love oneself and of the power within everyone to create meaningful and lasting change.

Sport in Latin America Gonzalo Bravo, Rosa Lopez de D'Amico, Charles Parrish, 2016-01-29 The forthcoming Olympics in Rio in 2016 and the FIFA World Cup in Brazil in 2014 highlight the profound importance of sport in Latin America. This book is the first to offer a broad survey of the way that sport is managed, governed and organized across the Latin American region, drawing on cutting edge contemporary scholarship in management, policy, sociology and history. The book explores key themes in Latin American sport including the role of public institutions, the relationship between sport policy and political regimes, the structure and significance of national governing bodies and professional leagues, the impact of sporting mega events including the Olympics and World Cup and the management and governance of football, the dominant sport in the region. Including contributions from Latin American scholars and practitioners, the book draws on important Spanish and Portuguese sources that are unknown to most English speaking researchers and therefore provides an unprecedented and authoritative insight into sport policy and management in the region. Including cases from sport in Brazil, Argentina, Chile, Colombia, Cuba, the Dominican Republic, Costa Rica and Peru and examples from Venezuela, Bolivia and Ecuador, this book is essential reading for all scholars, practitioners and policy makers with an interest in Latin American sport, comparative sport policy, sport management or Latin American history, culture and society.

Rugby, Soccer and Irish Society Conor Murray,2024-06-17 This book is the first academic all island history of either rugby union or association football two of the three most popular male sporting pastimes in Ireland across the seven decades that followed the political partition of that country between 1920 and 1922 It moves beyond the occasionally simplistic explanations of the development of Irish sport that have focused on political and sectarian divisions and goes deeper into the social cultural and geographical dynamics of the island of Ireland to explain why certain people have played certain games in certain places Drawing on historical and archival sources as well as cutting edge geographical information systems the book brings to life the spatial trends in each game s administrative development and geographical distribution that have not normally been a feature of many previous histories of Irish sport The book also examines first and second hand accounts of athletes and administrators involved in rugby and football during that period to explore what it meant to represent a province or country at these crucial moments in Irish history and compares the Irish experience of both sports with experiences in other comparable countries Shining important new light on the interactions between Irish rugby and football and the political social economic and cultural trends of Ireland in the twentieth century this book is fascinating reading for anybody with an interest in the history of sport Ireland or the UK

Multidisciplinary Perspectives on Team Sports: Contextualizing Training and Competition Demands Miguel-Angel Gomez-Ruano,Pierpaolo Sansone,Vincenzo Rago,2024-12-04 Team sports performance is determined by the complex non linear interaction of several factors including physical and physiological aspects technical tactical constraints mental demands perceptual and emotional aspects and contextual and environmental factors The influence of each of these aspects has been previously investigated However studies have often employed monodimensional perspectives looking at one or only a few different domains concurrently In football and rugby extensive efforts have been produced to contextualize the demands of training and competition based on players characteristics tactical constraints and contextual factors This information facilitates coaches in selecting the most appropriate training and competition strategies based on a number of different factors including the team and the opponents characteristics technical tactical abilities fitness status and considering contextual factors Differently there is a lack of information on contextualized competition demands in other team sports such as basketball handball futsal and volleyball

Furthermore the mental demands and psychological and emotional implications of team sports have received little or monodimensional attention limiting the applicability of findings in real life scenarios where a multitude of factors belonging to different disciplines e g physiology psychology training science social sciences need to be taken into account The Early Years of Chicago Soccer, 1887-1939 Gabe Logan,2019-05-30 For over a century Chicago has played soccer This work explains the early history of the game in the Second City beginning with the 1887 formation of the Chicago Football Association and concluding with the 1939 season and Chicago Sparta s National Open Cup win which brought the trophy to the city for the first time This study chronicles the early British immigrants who first transported and organized the game in Chicago It documents the myriad ethnic groups and native born players that kicked in the city s many leagues and examines the many championship tournaments teams and players that made Chicago one of the nation s early soccer powers **Sport Psychology** Nicholas T.
