Social Change Scientific Organization

Per Becker

Social Change Scientific Organization:

Science, Technology, and Social Change (Routledge Revivals) Steven Yearley, 2014-08-01 First published in 1988 this book provides students with a way to increase their understanding of the role of science and technology in society Steven Yearley draws on and develops ideas from research in the sociology and politics of science to address in particular the nature of scientific knowledge and the authority it commands the political and economic role of science in the West the relationship between science technology and social change in underdeveloped countries Examples used range from nineteenth century brain science to the strategic defence initiative and from hugely expensive experiments in nuclear physics to proposals for inexpensive boat building programmes in the Sudan Overall this reissue provides a comprehensive and stimulating account of the role played by science and technology in contemporary social change Sociology Understanding Society and Social Change Mr. Rohit Manglik, 2024-05-18 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels *Science, Technology, Imperialism, and War* Jyoti Bhusan Das Gupta, 2007 The Volume Science Technology Imperialism And War Interlinks The Concerned Themes To Present A Coherent Analysis Of The Development Of Related Ideas And Institutions In The Subcontinent The Chapters On Science Therefore Look At The Cognitive And Socio Historical Aspects Of Science Relating The Same With The Establishment And Spread Of Imperialism In India With Its Application To Develop Technologies And With The Use Of Such Technologies To Fund The Major Preoccupation Of Imperialism War Likewise The Section On Technology Leads The Reader To A Search For Its Very Probable Links With Imperialism And War The Section On Imperialism Offers Four Themes In The Edited Volume The First One Deals With Its Theories The Second With Its Link With Colonialism And The Third And The Fourth Follow Its Manifestation In The Russian And British Adventures Chiefly In Central Asia And India The Dependence Of Imperialism On War Looms Large War The Concluding Theme Of This Exercise Is The Saturation Point Of Human Efforts To Subjugate And Dominate Others The Scholars Writing In This Section Critically Survey The Various Kinds Of War Conventional Limited And Nuclear And A Detailed And Insightful Analysis Of The Cold War By The Editor Completes The Picture This Volume Will Prove Invaluable To Scholars And Students Of South Asian Studies History Political Science And International Relations And Defence Studies Alike *The Handbook of Organizing Economic, Ecological and Societal Transformation* Elke Weik, Chris Land, Ronald Hartz, 2024-08-19 This handbook gathers contributors from different disciplines of the social sciences such as organization and management studies sociology anthropology and political science to constructively discuss the kinds of transformations we need to see in coming years These transformations concern the way we work produce and consume but also the way in which we think about work production and consumption In an explicit rejection of the demand that the social sciences

provide quick fixes the contributors of this handbook discuss possible solutions in a critical and comprehensive manner and with an eye to both their environmental and societal implications The handbook is divided into four parts Opening up futures Techno economic transformations at work Sustainable environmental transformation and Radical democratic futures The handbook is of interest to all critical academics interested in constructive suggestions regarding necessary societal transformations

A Science of Impurity Christopher Hamlin,1990-01-01

Communication for Social Change Anthology Alfonso Gumucio Dagron,Thomas Tufte,2006 Contains nearly 200 readings published between 1927 and 2005 in English or translated from other languages on the historical roots and pioneering thinking regarding communication for social change Covers a variety of topics including the radio tv and other mass communication information and communication technology the digital gap the formation of an information society national information policies participatory decision making communication of development pedagogy and entertainment education HIV AIDS communication for prevention etc

Science of Goal Formulation Stuart A. Umpleby,1990-12-01 This work contains the proceedings of a meeting held by 18 American and Soviet scholars on the state of cybernetics and systems theory in their two countries American interest focused on the observation of systems whilst Soviet interest focused on mathematical modelling

Companion to the History of Modern Science G N Cantor,G.N. Cantor,J.R.R. Christie,M.J.S. Hodge,R.C. Olby,2006-09-07 A descriptive and analytical guide to the development of Western science from AD 1500 and to the diversity and course of that development first in Europe and later across the world Presented in clear non technical language Extensive indexes of Subjects and Names Indeed a companion volume whose 67 essays give pleasure and instruction an ambitious and successful work Times Literary Supplement This work is an essential resource for libraries everywhere For specialist science libraries willing to keep just one encyclopaedic guide to history for undergraduate libraries seeking to provide easily accessible information for the devisers of university curricula for the modern social historian or even the eclectic scientist taking a break from simply making history this is the book for you Times Higher Education Supplement A pleasure to read with a carefully chosen typeface well organized pages and ample margins it is very easy to find one s way around This is a book which will be consulted widely Technovation This is a commendably easy book to use British Journal of the History of Science Scholars from other areas entering this field students taking the vertical approach and teachers coming from any direction cannot fail to find this an invaluable text History of Science Journal

The Organisation of Knowledge in Victorian Britain Martin Daunton,2005-05-26 This collection of essays explores the questions of what counted as knowledge in Victorian Britain who defined knowledge and the knowledgeable by what means and by what criteria During the Victorian period the structure of knowledge took on a new and recognizably modern form and the disciplines we now take for granted took shape The ways in which knowledge was tested also took on a new form with the rise of written examinations New institutions of knowledge were created museums were important at the start of the period universities had become prominent by the end Victorians

needed to make sense of the sheer scale of new information to popularize it and at the same time to exclude ignorance and error a role carried out by encyclopaedias and popular publications By studying the Victorian organization of knowledge in its institutional social and intellectual settings these essays contribute to our wider consideration of the complex and much debated concept of knowledge Alternative Pathways in Science and Industry David J. Hess, 2007-03-16 In Alternative Pathways in Science and Industry David Hess examines how social movements and other forms of activism affect innovation in science technology and industry Synthesizing and extending work in social studies of science and technology social movements and globalization Hess explores the interaction of grassroots environmental action and mainstream industry and offers a conceptual framework for understanding it Hess proposes a theory of scientific and technological change that considers the roles that both industry and grassroots consumers play in setting the research agenda in science and technology and he identifies alternative pathways by which social movements can influence scientific and technological innovation He analyzes four of these pathways industrial opposition movements organized against targeted technologies as in the campaign against nuclear energy technology and product oriented movements which press for alternatives as does the organic food movement localism which promotes local ownership as in buy local campaigns and access pathways which support a more equitable distribution of resources Within each pathway Hess examines reforms in five different areas agriculture energy waste and manufacturing infrastructure and finance The book's theoretical argument and empirical evidence demonstrate the complex pattern of incorporation of grassroots innovations and transformation of alternative ownership structures and the alternative products themselves that has characterized the relationship of industry and activism Hess's analysis of alternative pathways to change suggests ways economic organizations could shift to a more just and sustainable course in the twenty first century *1973 National Science Foundation Authorization* United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Science, Research, and Development, 1972

Sustainability Science Per Becker, 2023-11-07 Sustainability is increasingly important across functional sectors and scientific disciplines Policy makers practitioners and academics continue to wrestle with the complexity of risk resilience and sustainability but because of the necessary transdisciplinary focus it is difficult to find authoritative content in a single source *Sustainability Science Managing Risk and Resilience for Sustainable Development* Second Edition contributes to filling that gap and is completely revised with several new chapters It asserts that all efforts for the sustainability of humankind are undermined by the four fundamental challenges of complexity uncertainty ambiguity and dynamic change While there are no silver bullets this book contends that we need systems approaches risk approaches participatory approaches and resilience approaches to address each of them and endeavours to provide such With that in mind this book describes the state of the world Part I proposes a way to approach the world Part II and suggests how to set out to change the world Part III Introduces a new agenda for sustainable development that reflects current thinking in sustainability science Draws lessons from the

entire history of humankind to help us understand our present and inform decisions for our future Operationalises key concepts to provide a clear link between theory to practice Combines a stern message about staggering sustainability challenges with advice for practical action and calls for hope Includes new chapters on complexity what it is how it manifests and its consequences on resistance to knowledge and change focusing on the drivers behind the phenomena and how to overcome them and more Empire and the Sun Alex Soojung-Kim Pang,2002 Astronomy was a popular and important part of Victorian sciences and British astronomers carried telescopes to remote areas in India North America and Caribbean and Pacific islands to watch solar eclipses This book tells the full story of these expeditions the long periods of planning and financing and the day to day work of getting to field sites setting up camp and preparing observing and recording eclipses

Federal Policy, Plans, and Organization for Science and Technology United States. Congress. House. Committee on Science and Astronautics,1974 *National Environmental Laboratories* United States. Congress. Senate. Committee on Public Works,1971 *Science of Statistics: Statistics and sociology* Richmond Mayo-Smith,1907 **Federal Policy, Plans, and Organization for Science and Technology, Hearings Before..., 93-2...** United States. Congress. House Science and Astronautics Committee,1974 **Sweet Science** Amanda Jo Goldstein,2017-07-10 Introduction sweet science Blake s mundane egg epigenesis and milieux Equivocal life Goethe s journals on morphology Tender semiosis reading Goethe with Lucretius and Paul de Man Growing old together Lucretian materialism in Shelley s The triumph of life A natural history of violence allegory and atomism in Shelley s The mask of anarchy Coda old materialism or romantic Marx Arctic Research of the United States ,1997 *The Experimental Self* Jan Golinski,2016-05-11 What did it mean to be a scientist before the profession itself existed Jan Golinski finds an answer in the remarkable career of Humphry Davy the foremost chemist of his day and one of the most distinguished British men of science of the nineteenth century Originally a country boy from a modest background Davy was propelled by his scientific accomplishments to a knighthood and the presidency of the Royal Society An enigmatic figure to his contemporaries Davy has continued to elude the efforts of biographers to classify him poet friend to Coleridge and Wordsworth author of travel narratives and a book on fishing chemist and inventor of the miners safety lamp What are we to make of such a man In *The Experimental Self* Golinski argues that Davy s life is best understood as a prolonged process of self experimentation He follows Davy from his youthful enthusiasm for physiological experiment through his self fashioning as a man of science in a period when the path to a scientific career was not as well trodden as it is today What emerges is a portrait of Davy as a creative fashioner of his own identity through a lifelong series of experiments in selfhood
