**The Planning of a New Town** London County Council,2015-03-05 The publication of *The Planning of a New Town* in 1961 aroused remarkable interest Its pages described a private new town sponsored by the London County Council LCC to be built at Hook in Hampshire a scheme that innovatively combined Garden City New Town traditions with sensitivity to modern design At its heart lay a multilevel and megastructural town centre intended to serve as a genuine focus for the gathering community featuring shops and amenities placed on a pedestrian deck with cars and servicing beneath The report itself proved extremely popular even though the New Town had fallen foul of political opposition at local and national levels and had been abandoned before any construction took place It offers an insight into the flux of ideas that surrounded New Town development in the early 1960s Analysing the world as it might have been not only identifies choices that were once available for shaping the built environment it also often reveals once cherished hopes and aspirations about how people might live in cities **Beyond Kolkata** Ishita

Dey,Ranabir Samaddar,Suhit K. Sen,2016-03-23 This book examines the politics behind and the socio economic and ecological repercussions of the making of a new township variously called New Town Megacity or Jyoti Basu Nagar in Rajarhat near Kolkata Conceived by the West Bengal state government in the mid 1990s in pandering to the vision of urban planners of creating a hi tech town beyond an unruly crowded Kolkata and feeding the hunger of realtors and developers the city is built on the foundations of coercive even violent land acquisition state largesse and corruption and at the cost of erasing a self sufficient subsistence economy and despoiling a fragile environment Yet after its completion and departure of construction labour the new town appears as a necropolis a ghost city that belies its promised image of an urban utopia even as the displaced locals lead a precarious mobile existence as transit labour engaged in odd and informal jobs Written on the basis of intensive fieldwork government documents court records and chronicles of public protests this book broadly analyses the politics and economics of urbanisation in the age of post colonial capitalism particularly the paradoxical combination of neoliberal and primitive modes of capital accumulation upon which the global emergence of new towns is based Departing from the dominant styles of urban studies that focus on cultural or spatial analysis of cities the authors show the links between changes in space technology political economy class composition and forms of urban politics which give concrete shape to a city It will immensely interest those in sociology political science economics development studies urban studies policy and governance studies and history *Invincible Green Suburbs, Brave New Towns* Mark Clapson,1998 Explores the phenomenon of the mass movement of people away from town and city centres to live in new estates and towns built since

Jacquemin,2019-01-22 First published in 1999 this volume examines India and Bombay countries which represent some of the world s most dramatic examples of rapid urban growth One of the strategies frequently adopted by the Indian authorities to cope with this urban growth is the development of new towns such as New Bombay which is India s largest and most significant urban planning experience since Independence The New Bombay model based on a specific planning and financing strategy is considered highly successful and so is increasingly being copied and implemented in other urban areas of India This volume makes the first independent evaluation of New Bombay and sets it in a wider Third World urban development context As well as analysing the processes of physical and economic growth the volume also examines the process of social development and in particular the consequences of this planning concept for the urban poor *Planning, Current Literature* ,1947
