Cybersecurity, Law, and Economics Gagandeep Kaur, Narendra N. Dalei, Sushanta Kumar Mahapatra, Vinay Kandpal, 2024-09-16 This book examines the intersection between cybersecurity and the law and economy of India and offers a course of action in designing efficacious policies against emerging cybercrimes in the country It reviews the boom in infrastructure growth in India and the security challenges this presents to the domestic economy and legal system The contributors conducted a risk assessment of the potential economic impacts and security vulnerabilities as well as identified the current regulatory and legal gaps regarding cryptocurrency

ecommerce and digital banking The book also considers the subject of data localization and sovereignty and the challenges of establishing an indigenous data architecture By discussing the economic impact of cybersecurity and incorporating recommendations from scholars activists academics young legal intellectuals and professionals in the field the chapters propose new measures and protections for lawmakers and policymakers to adopt This book will interest researchers and students of cybersecurity law and economics international relations and Indian policymakers New Thinking in Complexity for the Social Sciences and Humanities Ton Jörg, 2011-08-09 The underlying idea and motive for the book is that the notion of complexity may humanize the social sciences may conceive the complex human being as more human and turn reality as assumed in our doing social science into a more complex that is a richer reality for all The main focus of this book is on new thinking in complexity with complexity to be taken as derived from the Latin word *complexus* that which is interwoven The trans disciplinary approach advocated here will be trans disciplinary in two ways firstly by going beyond the separate disciplines within the fields of both natural sciences and social sciences and secondly by going beyond the separate cultures of the natural sciences and of the social sciences and humanities *Space and Beyond* B. N. Suresh, 2021-04-17 This book discusses the journey of Dr K Kasturirangan who shares his experience during his long tenure at ISRO including the Chairmanship of ISRO subsequently membership of the Rajya Sabha the Planning Commission and many other responsibilities Over the past five decades of public and professional service to the nation Dr Kasturirangan has graduated from a young researcher in astrophysics working under Vikram Sarabhai to leading India's space program ISRO being entrusted by five successive Prime Ministers besides dealing with several other domains of responsibilities beyond space all of which have significantly impacted India's development This book centers around select 12 public invited lectures Dr Kasturirangan delivered ranging from developing hi tech space systems to managing an organization as intricate as ISRO which was guided by the wisdom of mentors including Vikram Sarabhai M G K Menon Satish Dhawan and U R Rao to tackling multi faceted socio economic issues including India's nuclear deal report headed by him on the Western Ghats ecosystem and the new National Education Policy 2020 Scientists historians policy makers management strategists journalists or anyone with a keen interest in understanding the processes behind such large scale science technology and socio economic endeavors right from planning creating appropriate institutional mechanisms working with multiple stakeholders to ensure that these programs deliver tangible benefits to society articulating these benefits with clarity to political leaders to assure public support will find this book deeply instructive and illuminating It will be of interest to the scientific education and management community as well as to policy makers and researchers affiliated with multifaceted developmental issues **Law and Economics** Aristides N. Hatzis, Nicholas Mercurio, 2015-02-11 The Law and Economics approach to law dominates the intellectual discussion of nearly every doctrinal area of law in the United States and its influence is growing steadily throughout Europe Asia and South America Numerous academics and practitioners are working

in the field with a flow of uninterrupted scholarship that is unprecedented as is its influence on the law Academically every major law school in the United States has a Law and Economics program and the emergence of similar programs on other continents continues to accelerate Despite its phenomenal growth the area is also the target of an ongoing critique by lawyers philosophers psychologists social scientists even economists since the late 1970s While the critique did not seem to impede the development of the field it certainly has helped it to become more sophisticated inclusive and mature In this volume some of the leading scholars working in the field as well as a number of those critical of Law and Economics discuss the foundational issues from various perspectives philosophical moral epistemological methodological psychological political legal and social The philosophical and methodological assumptions of the economic analysis of law are criticized and defended alternatives are proposed old and new applications are discussed The book is ideal for a main or supplementary textbook in courses and seminars on legal theory philosophy of law jurisprudence and of course Law and Economics

Risk Society and Education in Post-Disaster Fukushima Kaoru Miyazawa,2021-12-30 In response to the explosion of the Fukushima Daiichi power plant in March 2011 this book examines how the concept of a risk society was handled in the

various education programs implemented in post disaster Fukushima The explosion and subsequent radiation contamination that affected the biosphere of the Fukushima region and beyond revealed that we live in a risk society Despite this revelation official discourses in Fukushima have been geared strictly toward the future with the aim of restoring communities and resuming development projects Based on the ethnographic data the author collected in Fukushima between 2013 and 2016 various contested emotions emerged in those education spaces as students and teachers remembered their romanticized and difficult past and dealt with the challenges presented by the risk society in their present lives The emotionally charged interactions between past and present also shaped their vision of their future community and of the actions they might take The dialogues and actions that took places in these education spaces encourage readers to examine the meaning of development and question the basic assumptions and methods of education as society shifts to a risk society A valuable resource for scholars and students in the fields of globalization and education curriculum studies sociology of education and Japanese studies

Self-Improvement Mark Coeckelbergh,2022-07-29 We are obsessed with self improvement it s a billion dollar industry But apps workshops speakers retreats and life hacks have not made us happier Obsessed with the endless task of perfecting ourselves we have become restless anxious and desperate We are improving ourselves to death The culture of self improvement stems from philosophical classics perfectionist religions and a ruthless strain of capitalism but today new technologies shape what it means to improve the self The old humanist culture has given way to artificial intelligence social media and big data powerful tools that do not only inform us but also measure compare and perhaps change us forever This book shows how self improvement culture became so toxic and why we need both a new concept of the self and a mission of social change in order to escape it Mark Coeckelbergh delves into the history of the ideas that shaped this culture critically analyzes the role of technology and explores surprising paths out of the self improvement trap Digital detox is no longer a viable option and advice based on ancient wisdom sounds like yet more self help memes The only way out is to transform our social and technological environment Coeckelbergh advocates new narrative technologies that help us tell different and better stories about ourselves However he cautions there is no shortcut that avoids the ancient philosophical quest to know yourself or the obligation to cultivate the good life and the good society
