Sociological Inquiry, 1976 **Sociological Inquiry** Kooros M. Mahmoudi, 1997-01-01 **Sociological Inquiry** Kooros M. Mahmoudi, Bradley W. Parlin, 2007 **Society and Nature** Hans Kelsen, 2014-05-22 First published in 1998 This is Volume XIV of eighteen in the Sociology of Behaviour and Psychology series This text is concerned with sociological inquiry into society and nature Written in 1946 it investigates the idea that society and nature if conceived of as two different systems of elements are the results of two different methods of thinking and are only as such two different objects The same elements connected with each other according to the principle of causality constitute nature connected with each other according to another namely a normative principle they constitute society *Sociological Inquiry* Kooros M. Mahmoudi, 1987 **Sociological Inquiry** Kooros M. Mahmoudi, Bradley W. Parlin, 1981 *Sociological Inquiry* Kooros M. Mahmoudi, Bradley W. Parlin, Marty E. Zusman, 1991-01-01 *The Human Journey* George V. Zito, 2005-06-30 *Rethinking Social Inquiry* Henry E. Brady, David Collier, 2010-09-16 With innovative new chapters on process tracing regression analysis and natural experiments the second edition of *Rethinking Social Inquiry* further extends the reach of this path breaking book The original debate with King Keohane and Verba now updated remains central to the volume and the new material illuminates evolving discussions of essential methodological tools Thus process tracing is often invoked as fundamental to qualitative analysis but is rarely applied with precision Pitfalls of regression analysis are sometimes noted but often are inadequately examined And the complex assumptions and trade offs of natural experiments are poorly understood The second edition extends the methodological horizon through exploring these critical tools A distinctive feature of this edition is the online placement of four chapters from the prior edition all focused on the dialogue with King Keohane and Verba

Conceptions of Social Inquiry J. J. Snyman, 1993 **Journal of the Statistical and Social Inquiry Society of Ireland**, 1908 Covers 8th session **Mixed Methods in Social Inquiry** Jennifer C. Greene, 2007-10-26 This is an excellent addition to the literature of integrated methodology The author has skillfully integrated diverse ways of thinking about mixed methods into a comprehensive and meaningful framework By providing detailed examples she makes it easy for both the students and the practitioners to understand the intricate details and complexities of doing mixed methods research On the other hand by comparing contrasting and bridging multiple perspectives about mixed methods she has made this book very relevant and useful to seasoned scholars of mixed methodology Abbas Tashakkori Frost Professor and coordinator educational research and evaluation methodology Department of Educational and Psychological Studies Florida International University founding coeditor *Journal of Mixed Methods Research* **Journal of the Statistical and Social Inquiry Society of Ireland** Statistical and Social Inquiry Society of Ireland, 1876 Covers 8th session *Marx's Theory of Ideology (RLE Marxism)* Bhikhu Parekh, 2015-04-17 Although Marx's concept of ideology has been a subject of considerable discussion much of the debate has proved to be rather disappointing There has been no systematic attempt to examine why Marx needed the

concept of ideology why it was an important concept for him and how it related to his views on truth and objectivity This book first published in 1982 considers these and other neglected questions It explains why Marx continued to use the term ideology throughout his life to mean both idealism and apologia and traces the complex ways in which according to Marx such talented writers as Hegel became apologists In conclusion the book outlines the lessons Marx learnt from his investigations into the nature and mechanism of ideology and discusses his theories of objectivity and truth The Pleasure of Inquiry Edward Ksenych, David Liu, 2007-01-22 The Pleasure of Inquiry Readings in Sociology takes a unique approach in using readings to demonstrate how sociology can be used as a conceptual tool for action The organization of the book is reflective of this particular characterization of sociological inquiry An important dimension of introducing students to this concept is providing students with some grounding in the theoretical bases of the discipline To that end For the Pleasure of Inquiry has provided a variety of accessible articles from both classical and contemporary sociological theorists which orient students to significant themes concepts and problems in sociological inquiry The reader is organized around the principle of offering articles that explore the possible transformation of modern society into what is often referred to as a postmodern society and the increasingly influential global context in which this is occurring This text will serve as an opportunity for both students and teachers to undertake a shared re examination of their own experiences conduct and embeddedness in the distinctive web of social relations and meanings we call modern society **SOCIETY AND NATURE** HANS. KELSEN, 2018

Taking Journalism Seriously Barbie Zelizer, 2004-04-29 Barbie Zelizer provides enormous service to students and scholars with this comprehensive and highly persuasive critique of the literature in and about journalism as both process and practice as a profession and an industry Zelizer takes a step back to look at what we know about news and she does not pull her punches in pointing out what we do not know Linda Steiner Rutgers University Zelizer's encyclopedic review of scholarly studies of journalism fills an important need for researchers and comparing that scholarship across disciplines generations and countries makes it even more valuable Her analyses will be invaluable for media research and should also spur interest in journalism among the social science and other disciplines she studied The book is an impressive achievement Herbert J Gans Columbia University and author of Democracy and the News Taking Journalism Seriously is a refulgent analysis of the condition of journalism studies Zelizer has produced a critical and lasting contribution to our understanding of the position of news journalism and journalism practice within the disciplines of political science sociology psychology philosophy language and cultural studies This excellent book is an engaging and sophisticated treatise on both the historical and contemporary theoretical perspectives of journalism scholarship Howard Tumber City University London How have scholars tended to conceptualize news newsmaking journalism journalists and the news media Which explanatory frames have they used to explore journalistic practice From which fields of inquiry have they borrowed in shaping their assumptions about how journalism works In Taking Journalism Seriously News and the Academy author Barbie Zelizer discusses questions about the

viability of the field of journalism scholarship and examines journalism as a discipline a profession a practice and a cultural phenomenon Taking Journalism Seriously argues that scholars have remained too entrenched within their own disciplinary areas resulting in isolated bodies of scholarship This is the first book to critically survey journalism scholarship in one volume and organize it by disparate fields The book reviews existing journalism research in such diverse fields as sociology history language studies political science and cultural analysis and dissects the most prevalent and understated research in each discipline The author provides a critical mapping of the field of journalism studies and encourages academics to look at journalism from various disciplinary perspectives Taking Journalism Seriously advocates a realignment of the ways in which journalism has traditionally been conceptualized and urges scholars to think anew about what journalism is as well as reflect on why they see it as they do Taking Journalism Seriously is designed for undergraduate and graduate students in advanced courses on Journalism and Journalism Studies It will also be of interest to scholars academics and researchers in the fields of Journalism Communication Media Studies Sociology and Cultural Studies
