Sociology Essays On Approach Method:

Essays on Approach and Method André Béteille, 2009-03-05 This collection reflects André Béteille's long career in teaching and research in a single institutional setting as a scholar of sociology. With a new introduction, two new essays and a new appendix, the second edition emphasizes that sociology as an intellectual discipline should be concerned more directly with the present than the past. Both the new essays complement the existing chapters in the book. Writing about sociology and current affairs in Chapter 2, Béteille makes a distinction between immediate return and delayed return research. Chapter 5 focuses on the important question of difference between the study of one's own society and the study of other cultures. The new appendix includes a conversation between the author and Surendra Munshi on a variety of themes. Together, the two appendices in the book reiterate the author's conviction that the study of one's own society gains from the insights derived from the study of other societies.

Sociology André Béteille, 2002 *The ISA Handbook of Diverse Sociological Traditions* Sujata Patel, 2009-10-21 A brilliant treasury of wisdom and insight drawn from leading sociologists throughout the world. It is a striking achievement of which the International Sociological Association can be very proud to have brought so many independent-minded scholars into so productive a dialogue. Dennis Smith, Professor of Sociology, Loughborough University. Twenty-nine chapters from prominent international contributors discuss, challenge and reconceptualise the global discipline of sociology, evaluating the diversities within and between sociological traditions of many regions and nation-states. They assess all aspects of the discipline: ideas and theories, scholars and scholarship, practices and traditions, ruptures and continuities through an international perspective. The Handbook argues that diversities in sociological traditions can be studied at three levels. First, they need to be studied from multiple spatial locations: within localities, within nation-states, within regions and the globe. Second, they need to be discussed in terms of their sociological moorings in distinct philosophies, epistemologies and theoretical frames, cultures of science and languages of reflection. Third, the intellectual moorings of sociological practices are extensive. The papers discuss the diverse and comparative sites of knowledge production and its transmission.

Sociological Perspectives on Globalisation Ajaya Kumar Sahoo, 2006 The work deals with an interesting collection of essays by specialists/scholars on different aspects of sociological perspectives on globalization. These essays, thirteen in number, discuss all relevant aspects of globalization at national and international level. The book will be of immense academic value to sociologists, social anthropologists, politics, cultural and ethnic studies and transnational studies.

Uprooting Geographic Thoughts in India Rana Singh, David Sopher, Oskar Spate, 2009-03-26 Under the cultural turn and transformation, the new intellectual discourses started in the 21st century to search the roots have cross-cultural comparison and to see how the old traditions be used in the contemporary worldviews. This book is the first attempt dealing with roots of Indian geographical thoughts since its beginning in 1920. It emphasises identity of India and Indianness and consciousness among dweller geographers in India, development and status of geography and its recent trends, Gaia theory and Indian

context in search of cosmic integrity ecospirituality and global message towards interrelatedness Hindu pilgrimages and its contemporary importance Mahatma Gandhi and his contribution to sustainable environmental development for global peace and humanism and new vision to see meeting grounds of the East and the West on the line of reconstruction and reconciliation in the globalising world These essays are selective and thematic therefore overall view of comprehensiveness is lacking But this book is not the end obviously it is a beginning as already other volumes in sequence and continuity are in progress At the end the lead essays representative of the three eras by Spate 1956 Sopher 1973 and Mukerji 1992 are reprinted with a view to assessing the relevance of their challenging message even today **Bringing Fieldwork Back In** Elijah Anderson, 2012-06-21 In 2001 the first of a series of ethnographic conferences took place in Los Angeles with an emphasis on fieldwork Since then the field has gained a much larger disciplinary footprint While the increase in substantial research in the field has risen dramatically ethnographic styles of writing have emerged that fail to include much discernible fieldwork This volume of The Annals broaches the subject of improving fieldwork in the ethnographic spectrum through old fashioned or shoe leather fieldwork At a more recent ethnographic conference at Yale University in 2010 with a follow up in June 2011 emerging ethnographers were mentored by senior scholars in which they presented an informal yet supportive setting where ethnographic fieldwork could be constructively critiqued This volume is a product of those collective efforts The articles in this volume include insight into relations among affluent minorities the status system we find in today's sports and a portrait of an employer of undocumented workers among other articles This volume will appeal to both undergraduate and graduate students with a wide range of interests including sociology education anthropology and race and gender conflicts and problems **Machine Translation and Translation Theory** Omri Asscher, 2025-07-17 Pervasive and ubiquitous machine translation systems have been transforming communication and understanding across languages and cultures on a historical scale Focused on both Neural Machine Translation tools such as Google Translate and generative AI tools such as ChatGPT Omri Asscher pursues the juncture between machine translation and the diverse often competing frameworks of human translation theory He shines a light on the subtleties of the intersection between the two the places where machine translation corresponds well with the ideas that have been developed on human translation throughout the years and the places where machine translation seems to challenge translation theory and perhaps even require that we rethink some of its basic assumptions Machine Translation and Translation Theory reflects the need for an accessible panoramic view on the subject It offers a detailed discussion of various points of theoretical interest definitions of translation equivalence in translation aesthetics of translation translation ethics translation as cross cultural communication and translation's historical agency This is key reading for researchers and students in translation studies as well as scholars of AI mediated communication and computer scientists interested in how machine translation architectures correspond with the understanding of translation in the humanities Religion, Civil Society and Democracy in Contemporary India Anindita

Chakrabarti,2018 Discusses the relevance of the reigning paradigms of Sanskritization and Islamization in the study of religious movements **Best Practices in Sustainable Development Goals** Sujit Kumar Paul,K. Gireesan,2025-06-17

Pathak,2022-04-25 This volume examines urban South Asia through the ideas of neighbourhood and neighbourliness With a focus on the affective socio spatial and sensorial experiences of non metropolitan small and intermediate cities the chapters in the volume look at neighbourhoods as a key to exploring the textures of urban life Bringing together scholars from a variety of disciplines including sociology anthropology urban studies planning and social history the book highlights urban heterogeneity and contemporary transformations in South Asia It discusses the linkages between urban lived spaces and social life memory migration and exile and the city and its society through practices of everyday life in neighbourhoods With studies from Sri Lanka Nepal Afghanistan Bangladesh and India the volume addresses a wide range of issues pertaining to urban experiences in their regional specificities and in a broader context of the Global South This book will be useful to scholars and researchers of urban sociology anthropology urban studies planning and development social history political studies cultural studies geography and South Asian studies It will also interest practitioners and policymakers architects planners civil society organisations and thinktanks **Education and Society in a Changing Mizoram** Lakshmi

Bhatia,2012-12-06 Located in the domain of cultural politics the book with rich ethnographical data from Mizoram a lesser known and understood state brings the community state and culture to centre stage along with family and stratification of the sociological discourse in education The book argues for a re look at school education in Mizoram besides providing critical insights into the North East region as a whole It also points to the dilemmas of development in that region and suggests possible ways out of the impasse Marking a significant departure from conventional thinking on education as human capital as reflected in North East Vision 2020 the book strongly advocates the need for critical pedagogies based on learning from conflict inculcating the values of tolerance and compassion as a precursor to peace reconceptualising development not merely as economic but as indicator of national happiness and valuing lives equally besides respect for traditional institutions

thus marking a break from the much resented paternalism that underpins all state interventions in education One of the first studies of its kind regarding experience and practice of education the book makes an important contribution to the role that education can play to usher in peace and promote respect for differences Classes of Labour Jonathan Parry,2020-03-20

Classes of Labour Work and Life in a Central Indian Steel Town is a classic in the social sciences The rigour and richness of the ethnographic data of this book and its analysis is matched only by its literary style This magnum opus of 732 pages an outcome of fieldwork covering twenty one years complete with diagrams and photographs reads like an epic novel difficult to put down Professor Jonathan Parry looks at a context in which the manual workforce is divided into distinct social classes which have a clear sense of themselves as separate and interests that are sometimes opposed The relationship between them may even be one of exploitation and they are associated with different lifestyles and outlooks kinship and marriage practices and suicide patterns A central concern is with the intersection between class caste gender and regional ethnicity with how class trumps caste in most contexts and with how classes have become increasingly structured as the structuration of castes has declined The wider theoretical ambition is to specify the general conditions under which the so called working class has any realistic prospect of unity

Culture, Context and Aging of Older Indians Jagriti Gangopadhyay,2021-06-05 This book discusses the intersections between culture context and aging It adopts a socio cultural lens and highlights emotional social and psychological issues of the older adults in urban India It is set in multiple sites such as Ahmedabad Delhi Kolkata and Saskatoon to indicate how different cultural practices and contextual factors play an integral role in determining the course of aging It also focuses on different narratives such as older adults living with adult children older adults living with spouse and older adults living alone to demonstrate the intricate process of growing old Drawing from various sites and living arrangements of older adults it sheds light on cultural constructions of growing old ideas of belonging the inevitability of death everyday processes of aging perceptions associated with growing old in India acceptance of the aging body and intergenerational ties in later lives Given its scope the book is essential reading for students and researchers in the fields of sociology demography and social scientists studying aging

From 'People' to 'Citizen' Dipankar Gupta,2017-09-18 From People to Citizen brings together social theory with policy practice to enlarge our understanding of the difference that democracy makes to the life of a nation Unlike nationalism democracy takes our attention away from the past to the future by focusing on the specific concerns of citizenship Historical victories or defeats blood and soil are now nowhere as relevant as the creation of a foundational base where individuals have equal and quality access to health education and even urban services The primary consideration therefore is on empowering citizens as a common category and not people of any specific community or class When citizens precede all other considerations the notion of the public too gets its fullest expression Differences between citizens are not denied in fact encouraged but only after achieving a basic unity first This book argues that the call of citizenship not only advances democracy but social science as well Please note Taylor Francis does not sell or

To the centers of empiricist philosophy of science in Vienna Berlin and Cambridge during the first half of this century one always added the great school of analytic and methodological studies in Warsaw and Lwow To the world centers of Marxist theoretical practice in Berlin Moscow Paris Rome and elsewhere one must add the Poland of the same era from Ludwik Krzywicki 1859 1941 onward American socialists and economists will remember the careful work of Oscar Lange working among us for many years and then after 1945 in Warsaw always humane logical objective In this volume our friend and colleague Jerzy J Wiatr has assembled a representative set of recent essays by Polish social scientists and philosophers Each of these might lead the reader far beyond this book to look into the Polish Sociological Bulletin which has been publishing Polish sociological studies in English for several decades to study other translations of books and papers by these authors and to reflect upon the interplay of logical phenomenological Marxist empiricist and historical learning in modern Polish social understanding

The Value of Comparison Peter van der Veer, 2016-05-19 In *The Value of Comparison* Peter van der Veer makes a compelling case for using comparative approaches in the study of society and for the need to resist the simplified civilization narratives popular in public discourse and some social theory He takes the quantitative social sciences and the broad social theories they rely on to task for their inability to question Western cultural presuppositions demonstrating that anthropology's comparative approach provides a better means to understand societies This capacity stems from anthropology's engagement with diversity its fragmentary approach to studying social life and its ability to translate difference between cultures Through essays on topics as varied as iconoclasm urban poverty Muslim immigration and social exclusion van der Veer highlights the ways that studying the particular and the unique allows for gaining a deeper knowledge of the whole without resorting to simple generalizations that elide and marginalize difference

Social Healing Ananta Kumar Giri, 2023-06-22 *Social Healing* draws on a transdisciplinary approach bringing sociology philosophy psychology and spirituality together to understand health social suffering and healing in our contemporary world It shows how we can transform the present discourse and reality of social suffering by multi dimensional movements of social healing The author argues for the need for a new art of healing in place of the dominant and pervasive technology and politics of killing It discusses manifold creative theories and practices of healing in self society and the world as well as new movements in social theory philosophy and social sciences which deploy creative methods of art and performance in healing our psychic and social wounds It explores the spiritual social ethical and political dimensions of health and healing This pioneering work will be of great interest to scholars and researchers of social theory sociology politics philosophy and psychology
