Equity and Justice in Social Behavior Jerald Greenberg, Ronald L. Cohen, 2014-05-10 *Equity and Justice in Social Behavior* provides a critical assessment of the social psychological knowledge relevant to justice. This book illustrates how the broad concept of justice pervades the core literature of social psychology. Organized into 12 chapters, this book begins with an overview of the primary justice theories and identifies some of the focal issues with which they are concerned. This text then provides the necessary theoretical background for the study. Other chapters consider the various individual difference variables known to affect adherence to social justice norms. This book explains as well how the perceived causes of justice affect attempts to seek redress and how actors and observers diverge in their perspectives about justice. The final chapter deals with the normative and instrumental interpretations that have been offered to explain justice behavior. This book is a valuable resource for social psychologists, social scientists, philosophers, political actors, theorists, and graduate students.

Tourism Y. Mansfeld, 1992 Paperback This monograph looks at the planning implications of a behavioural approach to the study of tourism. One of the main problems in planning tourism facilities is that of predicting tourists' expectations from these facilities and hence the potential of destinations to attract tourists. Until recently, studies aimed at detecting travel behaviour concentrated either on examining tourists' destination choice behaviour or on the spatial patterns of tourist flows. This study deals for the first time with the decision making and actual travel processes together in order to examine whether destination choice is class differentiated, spatial behaviour is class

differentiated and causal relations exist between tourist's choice and actual travel behaviour. A modified value stretch model is employed to investigate in a case study the destination choice and spatial behaviour of North West London Jewry. Results show that tourists belong
