*Cezanne's Early Imagery* Mary Tompkins Lewis, 2023-12-22 C zanne s Early Imagery by Mary Tompkins Lewis explores the lesser known but significant early works of Paul C zanne bringing to light the rich cultural and artistic context of his first decade as a painter While C zanne s biographers have long emphasized his tumultuous early life marked by his friendship with Emile Zola his rebellious nature and his passionate yet crude persona the actual paintings from this period have often been overshadowed Lewis addresses this gap in C zanne scholarship by examining how his early works reflect deep connections to both popular and artistic traditions revealing a more nuanced and deliberate painter than previously recognized Through detailed analysis of C zanne s early subject pictures Lewis moves beyond the conventional view of the artist as an impulsive romantic Instead she argues that his early paintings are stylistically and iconographically coherent shaped by both his engagement with the old masters and his awareness of contemporary cultural currents Highlighting the contributions of previous scholars such as Roger Fry and Meyer Schapiro Lewis builds on their groundwork to offer a comprehensive reappraisal of C zanne s early compositions Ultimately this study provides a deeper understanding of the young painter s creative process and the intellectual depth behind his bold defiant imagery enriching our appreciation of his role in modern art This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989      **Studies in Postimpressionism** John Rewald, 1986-04-15
