Cross-linguistic Semantics of Tense, Aspect, and Modality Lotte Hogeweg, Helen de Hoop, Andrej Malchukov, 2009-11-30 In recent years we have witnessed on the one hand an increased interest in cross linguistic data in formal semantic studies and on the other hand an increased concern for semantic issues in language typology However only few studies combine semantic and typological research for a particular semantic domain such as the papers in Bach et al 1995 on quantification and Smith 1997 on aspect This book brings together formal semanticists with a cross linguistic perspective and or those working on lesser known languages and typologists interested in semantic theory to discuss semantic variation in the specific domain of Tense Aspect and Mood Modality
