Studies In Religious Fundamentalism:

Studies in Religious Fundamentalism Lionel Caplan, 1987-01-01 This book examines the specific circumstances that nurture fundamentalist beliefs and practices It studies contemporary fundamentalist developments in several continents involving groups associated with five major religions The authors answer important questions regarding the rationality of fundamentalism its complex link with modernism the nature of its relationship to a sacred text and its perspectives on history and knowledge No fixed set of qualities defines fundamentalism Since it implies a view of the universe and a discourse about the nature of truth it encompasses and transcends the religious domain For that reason every movement or cause is potentially fundamentalist **Religious Fundamentalism in the Middle East** Mansoor Moaddel, Stuart A. Karabenick, 2013-07-04 In *Religious Fundamentalism in the Middle East* Moaddel and Karabenick analyze fundamentalist beliefs and attitudes across nations Egypt Iran Lebanon and Saudi Arabia faith Christianity and Islam and ethnicity Azari Turks Kurds and Persians among Iranians using comparative survey data For them fundamentalism is not just a set of religious beliefs It is rather a set of beliefs about and attitudes toward whatever religious beliefs one has In this analysis the authors show that fundamentalist beliefs and attitudes vary across national contexts and individual characteristics and predict people's orientation toward the same set of historical issues that were the concerns of fundamentalist intellectual leaders and activists The authors analysis reveals a cycle of spirituality that reinforces the critical importance of taking historical and cultural contexts into consideration to understand the role of religious fundamentalism in contemporary Middle Eastern societies *The Freedom to do God's Will* James Busuttil, Gerrie ter Haar, 2003-09-02 Under the auspices of top international commentators *The Freedom to do God's Will* considers the global impact of fundamentalism on religious traditions including Hinduism Buddhism Mormonism Christianity Judaism and Islam With special reference to human rights issues women's rights and the influence of social factors it brings a new dimension to a field of study often dominated by purely religious or political perspectives whilst challenging received ideas about the violence and conservatism of fundamentalist movements Illustrated with original case studies the ten investigative essays from a multicultural panel of experts each with specific local and academic knowledge of the faiths and issues they discuss offer an intimate and highly specific portrait of why and how fundamentalism occurs **Religious Fundamentalism in the Age of Pandemic** Nina Käsehage, 2020-11 This multidisciplinary anthology provides deep insights concerning the current impact of Covid 19 on various religious groups and believers around the world Based on contributions of well known scholars of religious fundamentalism the contributors offer a window into the origins of religious fundamentalism and the development of these movements **Religious Fundamentalism as a Threat to Peace** Dr. Roger Williamson, Life & Peace Institute, 1992

Religious Fundamentalism in the Contemporary World Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism

modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions Xenosophia and Religion. Biographical and Statistical Paths for a Culture of Welcome Heinz Streib,Constantin Klein,2018-07-20 This book documents the current polarization in Germany regarding the issue of refugee immigration It presents quantitative estimates for both xenophobia and xenophilia in the German population including short time changes The book suggests a conceptual change of perspectives It focuses not only on the pathogenic model that accounts for outcomes such as xenophobia Islamophobia and other forms of inter religious prejudice but on a salutogenic model In the book s view the salutogenic model entails xenosophia the wisdom creativity and inspiration that emerges from the encounter with the strange and the strange religion The book addresses individual dispositions which may lead to xenophobia or xenosophia and takes into account predictors such as religiosity religious schemata value preferences tolerance of complexity and violence legitimizing norms of masculinity A selection of case studies present typical biographical trajectories toward xenosophia ,
