Truth Johnny George, 2017-11-27 As shattered fragments of a buried mirror may be cleaned and pieced together to portray a reflection so the book TRUTH clears away dirt and muck of untruth The author fits shards of knowledge like pieces of a puzzle to display what may be a very real reflection of ultimate high level truth In a search that has spanned over five decades there has been no agenda other than eliminating untruth to reveal a clear image of reality Pertinent facets of many many sources have been inter connected in the creation of this book The Bible Eastern philosophy the Dead Sea scrolls the Nag Hammadi texts the archives of Edgar Cayce and Seth American Indian Wisdom ancient Toltec knowledge science physics and quantum mechanics decades of magazine and news articles and such modern thinkers teachers and writers as Rhonda Byrne Depak Chopra David Deutsch Brian Greene Bruce Lipton Eckhart Tolle Neale Donald Walsch and many others TRUTH offers evidence that awareness of certain knowledge may awaken humanity to our natural progression in spirit Signs point to a path that can bring us to merge in a collective consciousness where the oneness of all may be realized where separate beliefs both spiritual and scientific may coalesce and be transcended where we may evolve to find our true nature as nonviolent spiritual beings When many signs point the same direction who would follow the one that doesn't When answers add up and make sense why do so many believe things that don't TRUTH has been said to be among the most informative the most comprehensive books ever written and has even been called the best book ever This new second edition is vastly improved over the first It includes a Preface with information about where the book came from and why it was written The new version also contains the results of more biblical research and quotes and many enhancements and additional details throughout

Assessing the Long-Term Impact of Truth Commissions Anita Ferrara, 2014-09-19 In 1990 after the end of the Pinochet regime the newly elected democratic government of Chile established a Truth and Reconciliation Commission TRC to investigate and report on some of the worst human rights violations committed under the seventeen year military dictatorship The Chilean TRC was one of the first truth commissions established in the world This book examines whether and how the work of the Chilean TRC contributed to the transition to democracy in Chile and to subsequent developments in accountability and transformation in that country The book takes a long term view on the Chilean TRC asking to what extent and how the truth commission contributed to the development of the transitional justice measures that ensued and how the relationship with those subsequent developments was established over time It argues that contrary to the views and expectations of those who considered that the Chilean TRC was of limited success that the Chilean TRC has in fact over the longer term played a key role as an enabler of justice and a means by which ethical and institutional transformation has occurred within Chile With the benefit of this historical perspective the book concludes that the impact of truth commissions in general needs to be carefully reviewed in light of the Chilean experience This book will be of great interest and use to students and scholars of conflict resolution criminal international law and comparative legal systems in Latin America
