Studies In Zoroastrian Family Law:

Studies in Zoroastrian Family Law Bodil Hjerrild, 2003 The source material of the book is translated from the only existent Sasanian law text and two Riv yats from the first half of the ninth and the first half of the tenth century at which time the Zoroastrians survived only in minority communities The original text is presented in photocopy with a transcription The analysis is concerned with four institutions in the sphere of family law Guardianship marriage of levirate marriage of a woman in order to provide her father or brother with an heir and marriage between close relatives incest taboo did not exist The issue of the research is to show how the social conditions and internal family economy with its power balance is reflected in the rules of the Sasanian law and that the differences apparent in the later texts are not accidental but form a pattern caused by the changing social conditions and that the law was changed in order to help preserve the Zoroastrian minority in adversity under Arab rule Studies in Zoroastrian family law Bodil Hjerrild, 2000 *Incestuous and Close-kin Marriage in Ancient Egypt and Persia* Paul John Frandsen, 2009 For both ancient Egypt and Iran as a cultural feature incestuous relationships are usually dismissed on the grounds that they are only found as the exception being allowed for royalty as representatives for the divine on earth or that the evidence for such relationships are unreliable Neither view from the perspective of this study is tenable This work examines the evidence for marriage and sexual relations between siblings and between a parent and child in ancient Egypt and pre Islamic Iran The book restricts its examination to incestuous relationships between members of non royal nuclear families and puts forth arguments against the generally held axiom that the prohibition of incest is a universal phenomenon The Wiley Blackwell Companion to Zoroastrianism Michael Stausberg, Yuhan Sohrab-Dinshaw Vevaina, 2022-12-12 This is the first ever comprehensive English language survey of Zoroastrianism one of the oldest living religions Evenly divided into five thematic sections beginning with an introduction to Zoroaster Zarathustra and concluding with the intersections of Zoroastrianism and other religions Reflects the global nature of Zoroastrian studies with contributions from 34 international authorities from 10 countries Presents Zoroastrianism as a cluster of dynamic historical and contextualized phenomena reflecting the current trend to move away from textual essentialism in the study of religion **Law and Identity in Colonial South Asia** Mitra Sharafi, 2014-04-21 This book explores the legal culture of the Parsis or Zoroastrians an ethnoreligious community unusually invested in the colonial legal system of British India and Burma Rather than trying to maintain collective autonomy and integrity by avoiding interaction with the state the Parsis sank deep into the colonial legal system itself From the late eighteenth century until India's independence in 1947 they became heavy users of colonial law acting as lawyers judges litigants lobbyists and legislators They de Anglicized the law that governed them and enshrined in law their own distinctive models of the family and community by two routes frequent intra group litigation often managed by Parsi legal professionals in the areas of marriage inheritance religious trusts and libel and the creation of legislation that would become Parsi personal law Other South Asian

communities also turned to law but none seem to have done so earlier or in more pronounced ways than the Parsis

Sexuality in the Babylonian Talmud Yishai Kiel, 2016-10-13 This book explores sex and sexuality in the Babylonian Talmud within the context of competing cultural discourses for students of comparative religion

Zoroastrian Scholasticism in Late Antiquity Zeini Arash Zeini, 2020-02-03 Examines Zoroastrian exegesis by investigating a late antique translation of an ancient Iranian text Challenges the view that considers the study of the Zand an auxiliary science to Avestan studies Views the Zand of the YH as a text in its own right and investigates it within the wider Pahlavi literature Considers the so called glosses in the Zand for the first time as an integral part of the text Offers a variorum edition of the Middle Persian text refusing to establish an Urtext In late antiquity Zoroastrian exegetes set out to translate their ancient canonical texts into Middle Persian the vernacular of their time Although undated these translations commonly known as the Zand are often associated with the Sasanian era 224 651 ce Despite the many challenges the Zand offers to us today it is indispensable for investigations of late antique exegesis of the Avesta a collection of religious and ritual texts commonly regarded as the Zoroastrians scripture Arash Zeini also offers a fresh edition of the Middle Persian version of the Avestan Yasna HaptaA hA iti a ritual text composed in the Old Iranian language of Avestan commonly dated to the middle of the second millennium bce Zeini challenges the view that considers the Zand s study an auxiliary science to Avestan studies framing the text instead within the exegetical context from which it emerged

A State of Mixture Richard E. Payne, 2015-09-01 Christian communities flourished during late antiquity in a Zoroastrian political system known as the Iranian Empire that integrated culturally and geographically disparate territories from Arabia to Afghanistan into its institutions and networks Whereas previous studies have regarded Christians as marginal insular and often persecuted participants in this empire Richard Payne demonstrates their integration into elite networks adoption of Iranian political practices and imaginaries and participation in imperial institutions The rise of Christianity in Iran depended on the Zoroastrian theory and practice of hierarchical differentiated inclusion according to which Christians Jews and others occupied legitimate places in Iranian political culture in positions subordinate to the imperial religion

Christians for their part positioned themselves in a political culture not of their own making with recourse to their own ideological and institutional resources ranging from the writing of saints lives to the judicial arbitration of bishops In placing the social history of East Syrian Christians at the center of the Iranian imperial story A State of Mixture helps explain the endurance of a culturally diverse empire across four centuries
