shows how emotion shapes the tone of interactions among citizens She also analyzes the ways in which emotions are shared and transmitted among citizens of a particular regime paying particular attention to the connection between political institutions and the psychological dispositions that they foster Public Passion presents illuminating new ways to appreciate the forms of popular will and reveals that emotional understanding by citizens may in fact be the very basis through which a commitment to principles of justice can be sustained

The Virtue of the Citizen Merja Kylmäkoski, 2001 The author examines Jean Jacques Rousseau's political thought from the angle of classical republicanism To offer an account of Rousseau's republicanism she explores his idea of the citizen and civic virtues In addition eighteenth century conceptions of luxury and Rousseau's ideas of the patriot and liberty are discussed Rousseau's republicanism is here considered to stem from his Genevan legacy and his ideas are seen as a critical response to the contemporary ascendancy of the Mandevillian idea of man which emphasized the values and virtues attached to commerce

Shades of Indignation Paul Jankowski, 2008 Corruption is far from disappearing yet now it inspires resignation rather than indignation and as such it has lost its power to scandalize Jankowski claims that such transformations tell a tale The state that once aspired to pre-eminence as the sole magnet of loyalty touchstone of probity and guarantor of right has yielded significant ground to the individual who is now more likely to elevate his own dignity and cry scandal on his own behalf Jacket
