Studies Voltaire 18th Century Volume 349:

Edward Gibbon and Empire Rosamond McKitterick, Roland Quinault, 2002-07-18 This book examines Gibbon's interpretations of empire and the intellectual context in which he formulated them against a background of the eighteenth and late twentieth century knowledge of late antiquity and the Middle Ages Gibbon's ideas of empire his understanding of monarchy and the balance of power his sources and working methods the structure of the *History of the Decline and Fall of the Roman Empire* his attitude towards the barbarians the contrasting treatments of the eastern and western Empire his appreciation of past civilizations and their material remains his audience and their reactions contemporary and Victorian are considered in the light of the latest research on eighteenth century intellectual history on the one hand and on late antiquity Byzantium and the Middle Ages on the other The book breaks new ground in taking the form of a dialogue between experts on the fields about which Gibbon himself wrote and eighteenth century intellectual historians Threads and Traces Carlo Ginzburg, 2012-01-09 Carlo Ginzburg's brilliant and timely new essay collection takes a bold stand against naive positivism and allegedly sophisticated neo-skepticism It looks deeply into questions raised by decades of post-structuralism What constitutes historical truth How do we draw a boundary between truth and fiction What is the relationship between history and memory How do we grapple with the historical conventions that inform in different ways all written documents In his answers Ginzburg peels away layers of subsequent readings and interpretations that envelop every text to make a larger argument about history and fiction Interwoven with compelling autobiographical references *Threads and Traces* bears moving witness to Ginzburg's life as a European Jew the abiding strength of his scholarship and his deep engagement with the historian's craft *The Works of Maria Edgeworth, Part II Vol 11* Marilyn Butler, 2019-09-19 Presents scholars students and general readers with the major fiction for adults much of the best of juvenile fiction and a selection of the educational and occasional writings of Maria Edgeworth MARIA EDGEWORTH was born in 1768 Her first novel *Castle Rackrent* 1800 was also her first Irish tale The next such tale was *Ennui* 1809 after which came *The Absentee* which began life as an unstaged play and was then published in prose in *Tales of Fashionable Life* 1812 as were several of her other stories They were followed in 1817 by the last of her Irish tales *Ormond* Maria Edgeworth died in 1849 Edited with an introduction and notes by Marilyn Butler *Friends of Liberty* Gary Nash, Graham Russell Gao Hodges, 2009-03-12 *Friends of Liberty* tells the remarkable story of three men whose lives were braided together by issues of liberty and race that fueled revolutions across two continents Thomas Jefferson wrote the founding documents of the United States Thaddeus Kosciuszko was a hero of the American Revolution and later led a spectacular but failed uprising in Poland his homeland Agrippa Hull a freeborn black New Englander volunteered at eighteen to join the Continental Army During the Revolution Hull served Kosciuszko as an orderly and the two became fast friends Kosciuszko's abhorrence of bondage shaped his thinking about the oppression in his own land When Kosciuszko returned to America in the 1790s bearing the wounds of his own failed revolution he and

Jefferson forged an intense friendship based on their shared dreams for the global expansion of human freedom. They sealed their bond with a blood compact whereby Jefferson would liberate his slaves upon Kosciuszko's death. But Jefferson died without fulfilling the promise he had made to Kosciuszko and to a fledgling nation founded on the principle of liberty and justice for all.

The Virtues of Abandon Charly Coleman, 2014-07-01 France in the eighteenth century glittered but also seethed with new goods and new ideas. In the halls of Versailles the streets of Paris and the soul of the Enlightenment itself a vitriolic struggle was being waged over the question of ownership of property of position even of personhood. Those who championed man's possession of material spiritual and existential goods faced the successive assaults of radical Christian mystics philosophical materialists and political revolutionaries. *The Virtues of Abandon* traces the aims and activities of these three seemingly disparate groups and the current of anti individualism that permeated theology philosophy and politics throughout the period. Fired by the desire to abandon the self men and women sought new ways to relate to God nature and nation. They joined illicit mystic cults that engaged in rituals of physical mortification and sexual license committed suicides in the throes of materialist fatalism drank potions to induce consciousness altering dreams railed against the degrading effects of unfettered consumption and ultimately renounced the feudal privileges that had for centuries defined their social existence. The explosive denouement was the French Revolution during which God and king were toppled from their thrones.
