Studies In 20th Century Philos:

Studies in 20th Century Philosophy Nicholas Rescher, 2013-05-02 Set of studies of various movements and developments in 20th century philosophy in which Nicholas Rescher was involved as a participant **A Quantitative Portrait of Analytic Philosophy** Eugenio Petrovich, 2024-04-16 This book offers an unprecedented quantitative portrait of analytic philosophy focusing on two seemingly marginal features of philosophical texts citations and acknowledgements in academic publications Originating from a little network of philosophers based in Oxford Cambridge and Vienna analytic philosophy has become during the Twentieth century a thriving philosophical community with thousands of members worldwide Leveraging the most advanced techniques from bibliometrics citations and acknowledgments are used in this book to shed light on both the epistemology and the sociology of this philosophical field illuminating the intellectual trajectory of analytic philosophy as well as the social characteristics of the analytic community Special attention is dedicated to the last forty years providing insights into a phase of analytic philosophy which is still understudied by historians of philosophy In the eight chapters of the book readers will find not only numerous quantitative investigations and technical explanations but also a robust theoretical framework and epistemological reflections on the strengths and limitations of quantitative methods for the study of philosophy With its strong interdisciplinary appeal this book will engage a wide range of scholars including historians of philosophy seeking new methodologies analytic philosophers interested in a new look at their discipline and scholars in digital humanities bibliometrics and quantitative studies of science who will find many innovative techniques for investigating disciplinary fields Quantitative Studies in Philosophy Nicholas Rescher, 2021-10-06 Philosophy and mathematics grew up together in the days of Pythagoras and Plato Indeed they have been in constant companionship and interaction ever since This book examines 15 of these interactions some dealing with the greats of history such as Aristotle and Leibniz some addressing modern greats such as Einstein Schrodinger and G del and some dealing not with themes but rather the thinkers Taken together they represent a characteristic sampling of the author s philosophical investigations over more than three decades Collected Studies on Philo and Josephus Per Bilde, Eve-Marie Becker, 2016-07-11 Philo of Alexandria and Flavius Josephus are amongst the most influential ancient writers In his long scholarly career Per Bilde 1939 2014 published various essays studies and articles examining early Judaism and the historical Jesus from the angle of the work of Philo and Josephus Many of the articles contain in depth treatment of primary sources and thus are of great value for scholars to come The studies in this volume have yet been compiled by Per Bilde himself They are now edited posthumously with contributions from Steve Mason Groningen and Mogens M ller Copenhagen responding to Bilde s work Continental Philosophy in the 20th Century Richard Kearney, 2015-09-29 Continental philosophy is one of the twentieth century s most important and challenging philosophical movements This major volume includes fourteen chapters on its major representatives and schools including phenomenology existentialism and postmodernism **19th and 20th Century**

French Philosophy Frederick Charles Copleston, 2003-01-01 Copleston an Oxford Jesuit and specialist in the history of philosophy created his history as an introduction for Catholic ecclesiastical seminaries The 11 volume series gives an accessible account of each philosopher's work and explains their relationship to the work of other philosophers

The Berlin Group and the Philosophy of Logical Empiricism Nikolay Milkov, Volker Peckhaus, 2013-02-26 The Berlin Group for scientific philosophy was active between 1928 and 1933 and was closely related to the Vienna Circle In 1930 the leaders of the two Groups Hans Reichenbach and Rudolf Carnap launched the journal *Erkenntnis* However between the Berlin Group and the Vienna Circle there was not only close relatedness but also significant difference Above all while the Berlin Group explored philosophical problems of the actual practice of science the Vienna Circle closely following Wittgenstein was more interested in problems of the language of science The book includes first discussion ever in three chapters on Walter Dubislav's logic and philosophy Two chapters are devoted to another author scarcely explored in English Kurt Grelling and another one to Paul Oppenheim who became an important figure in the philosophy of science in the USA in the 1940s 1960s Finally the book discusses the precursor of the Nord German tradition of scientific philosophy Jacob Friedrich Fries

On the Nature of Philosophy and Other Philosophical Essays Nicholas Rescher, 2013-05-02 This book continues Rescher's longstanding practice of publishing groups of philosophical essays Notwithstanding their thematic diversity these discussions exhibit a uniformity of method in addressing philosophical issues via a mixture of historical contextualization analytical scrutiny and common sensical concern Their interest such as it is lies not just in what they do but in how they do it

On certainty and other philosophical essays on cognition Nicholas Rescher, 2013-05-02 On Certainty continues Rescher's longstanding practice of publishing occasional studies that form part of a wider program of investigation of the scope and limits of rational inquiry in the pursuit of understanding And pragmatism forms a subtextual Leitmotiv of these essays seeing that the linking idea at work throughout is that knowledge is a tool for the management of our theoretical and practical affairs and that what we ask of it is serviceability for the uses we have in view

Issues in the Philosophy of Religion Nicholas Rescher, 2013-05-02 Over the years Nicholas Rescher has published various essays on religious issues from a philosophical point of view The chapters of the present volume collect these together joining to them four further pieces which appear here for the first time Chapters 3 7 and 8 While these studies certainly do not constitute a system of religious philosophy they do combine to give a vivid picture of a well defined point of view on the subject the viewpoint of a Roman Catholic philosopher who in the longstanding manner of this tradition seeks to harmonize the commitments of faith with the fruits of inquiry proceeding under the auspices of reason
