Parents! Maximized Parenting, 112 Solutions to the Parenting Problems of Today Francis Edo Olotu, Catherine

Olubukunola Olotu, 2014-02-24 Effective parenting is about raising well adjusted children who are assets to society

Maximized Parenting is a book which promotes effective parenting through equipping parents with the knowledge that fosters proper foundation for parenting According to Partnership for 21st Century Skills 2006 and American Management

Association's AMA 2010 Survey many employers believe that higher education is failing in its role to adequately develop needed skills in students. Parents with the help of this book can bridge the knowledge gap between what higher education provides and what the employment industry requires. The book is for parents who consider parenting as one of their most important responsibilities in life. One of the greatest assets a child could have is dutiful parents from whom he/she learns the act of parenting. Parents without this privilege are large in number and to them parenting is a dark continent which they find difficult to navigate. This book is written to inform, inspire, and impart knowledge about parenting in the 21st century. The book would enable parents interact with their children in a way that would motivate them to be outstanding persons in life. In this information age, you cannot limit your child to how you were brought up or what you know because he/she was born in another era. The gamut of issues covered in this book will equip you to bring up your child to be successful in life. Issues treated in this book will help you know healthy parenting methods that are best for your child. The book contains a very broad mix of issues a parent would encounter at every stage of a child's life. It is written from the perspective that a parent's job is for life and as such parents need help to sustain their long-term commitment to their children. Issues covered include character building, instilling moral values into children, basic life skills at every stage of life, sexuality education, and handling children with special needs. While the information in this book is specifically for parents, the information would be useful to fathers, groups, men's groups, women's groups, grandparents, extended family members, and childcare providers that have opportunities to relate to children. Research now and again has shown that a family is more important to a child's school success than how much money the family makes or how much education the parents have. No parent who has read this book should ever ask, "How can I make my child a success in life?" The social commentator Michael Novak wrote on the importance of family: "One unforgettable law has been learned through all the disasters and injustices of the last thousand years: if things go well with the family, life is worth living; when the family falters, life falls apart." The goal of Maximized Parenting is to fill the knowledge gap in you that will make you a better parent as well as an inspiration to other parents of the 21st century. Choose to be an intentional parent who will put in the needed time, energy, and efforts to raise successful children. Know that expensive toys and vacations are a poor substitute for the valuable time you need to spend with your children. Refuse to outsource your parenting duties to caregivers and boarding schools, and you will be a stakeholder in the next generations through your children who will pass on your legacies. Remember when a parent dies, one thing that cannot be buried with him/her is his/her impact on the lives of his/her children; those things become a living memorial in his/her children.

Emerging Trends in Technology for Education in an Uncertain World Dwi Nanto, Maila Rahiem, Tita Maryati, 2021-12-24. Presently, people are facing a condition called VUCA (Volatility, Uncertainty, Complexity, and Ambiguity) where this condition is described as a turbulent, uncertain, complicated, unclear condition. The world of work and industry is changing quickly, driven by the development of technology, information, and communication. Advances in computer technology, artificial intelligence, robotics,

which is also called as the industrial revolution 4.0 eras are of significant influence on environment and people. A time where humans must learn quickly and an era where the future is unpredictable where choices for various conditions are increasing and mindsets are changing. The big challenge for educational institutions especially Islamic educational institutions today is how to prepare young people on various aspects of cognitive, mental and spiritual preparedness to face the changing environment. Development in the real world is far more complex than what is learned in the classroom so it is necessary to educate and transform curriculum that is directed in accordance with the demands of present times. The 6th International Conference on emerging trends in technology for education in facing VUCA (Volatility, Uncertainty, Complexity and Ambiguity) is designed not only to share research but also to offer recommendations to governments, educational institutions and other stakeholders to improve the quality of education through technology based educational programs. The conference was held by Faculty of Education UIN Syarif Hidayatullah Jakarta. Scholars, researchers, policy makers, teachers and students from various countries participated and worked together to discuss how to improve the quality of education in the Muslim community. Guided by UIN Jakarta, the 6th ICEMS of 2020 provided opportunities for various educational stakeholders especially in Muslim Communities around the world to share their creative and innovative works, opinions and experiences in open academic forums.

Quantitative Research Methods in Communication Erica Scharrer, Srividya Ramasubramanian, 2025-04-17. This fully updated second edition offers an advanced introduction to quantitative methods that focuses on why and how to conduct research that contributes to social justice. Providing both inspiration and step by step guidance on how to conceive, design and carry out a quantitative study, the book shows how research can be used to work toward a more just and equitable world. The authors provide a detailed guide to quantitative methods and statistical analysis showing how researchers can engage with social justice issues in systematic, rigorous, ethical and meaningful ways. This new edition includes a new chapter on writing literature reviews and better aligns with the stages of quantitative research as well as the changing technologies that are available for researchers to both study and use in their work. It includes updated real world case studies, interviews with scholar activists and definitions of key concepts as well as a deeper focus on ethics, social media, computational social sciences, data analytics and data visualization techniques. Attuned to questions of access, equity, justice, diversity and inclusion, this textbook is ideal for graduate and advanced undergraduate courses in research methods for communication and the social sciences. It will also be of interest to researchers who wish to engage with the transformation of structures, practices and understandings in society through community and civic engagement and policy formation. Online resources for instructors include a test bank, PowerPoint slides, sample dataset and YouTube tutorials. They are available online at www.routledge.com/9781032599878.
