Studies In Medieval Cistercian History Presented To Jeremiah F Osullivan:

Studies in Medieval Cistercian History Jeremiah Francis O'Sullivan, 1971 Enemies Hays R W The Welsh monasteries and the Edwardian conquest Desmond L A The statute of Carlisle and the Cistercians 1298 1369 Telesca W J The Cistercian dilemma at the close of the Middle Ages Gallicanism or Rome Volz C Martin Luther's attitude toward Bernard of Clairvaux Bibliography of studies by Jeremiah F O Sullivan p 205 **The Cistercian Order in Medieval Europe** Emilia

Jamroziak, 2015-06-22 The Cistercian Order in Medieval Europe offers an accessible and engaging history of the Order from its beginnings in the twelfth century through to the early sixteenth century Unlike most other existing volumes on this subject it gives a nuanced analysis of the late medieval Cistercian experience as well as the early years of the Order Jamroziak argues that the story of the Cistercian Order in the Middle Ages was not one of a Golden Age followed by decline nor was the true Cistercian spirit exclusively embedded in the early texts to remain unchanged for centuries Instead she shows how the Order functioned and changed over time as an international organisation held together by a novel management system from Estonia in the east to Portugal in the west and from Norway to Italy The ability to adapt and respond to these very different social and economic conditions is what made the Cistercians so successful This book draws upon a wide range of primary sources as well as scholarly literature in several languages to explore the following key areas the degree of centralisation versus local specificity how much the contact between monastic communities and lay people changed over time how the concept of reform was central to the Medieval history of the Cistercian Order This book will appeal to anyone interested in Medieval history and the Medieval Church more generally as well as those with a particular interest in monasticism **On the Social Origins of Medieval Institutions**, 2021-09-20 A collection of essays celebrating

the career of Joseph F O Callaghan a noted historian of Spanish history Written by his students and colleagues they explore the relationship between human society and the institutions it produces The first part of the book The Influence of Law on Society contains essays exploring the laws and customs regarding such social institutions as marriage the care of the sick and Jews The second part The Relationship between Government and War focuses on the institutional and technological innovations that the crown and parliament in Spain and England developed to wage war **The Cistercian Reform and**

the Art of the Book in Twelfth-Century France Diane Reilly, 2025-10-01 This book is a study of the programmatic oral performance of the written word and its impact on art and text Communal singing and reading of the Latin texts that formed the core of Christian ritual and belief consumed many hours of the Benedictine monk's day These texts read and sung out loud memorized and copied into manuscripts were often illustrated by the very same monks who participated in the choir liturgy The meaning of these illustrations sometimes only becomes clear when they are read in the context of the texts these monks heard read The earliest manuscripts of Cîteaux copied and illuminated at the same time that the new monastery's liturgy was being reformed demonstrate the transformation of aural experience to visual and textual legacy *Cistercian*

Stories for Nuns and Monks Martha G. Newman, 2020-10-30 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order's illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim's patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard's stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman's study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities

War and the Making of Medieval Monastic Culture Katherine Allen Smith, 2013-09-19 Finalist for AAH First Book Prize The monastic life traditionally considered as an area of withdrawal from the world is here shown to be shaped by metaphors of war and to be actively engaged with battle in the world outside An extremely interesting and important book makes an important contribution to the history of medieval monastic spirituality in a formative period whilst also fitting into wider debates on the origins development and impact of ideas on crusading and holy war Dr William Purkis University of Birmingham Monastic culture has generally been seen as set apart from the medieval battlefield as those who prayed were set apart from those who fought However in this first study of the place of war within medieval monastic culture the author shows the limitations of this division Through a wide reading of Latin sermons letters and hagiography she identifies a monastic language of war that presented the monk as the archetypal soldier of Christ and his life of prayer as a continuous combat with the devil indeed monks' claims to supremacy on the spiritual battlefield grew even louder as Church leaders extended the title of soldier of Christ to lay knights and crusaders So while medieval monasteries have traditionally been portrayed as peaceful sanctuaries in a violent world here the author demonstrates that monastic identity was negotiated through real and imaginary encounters with war and that the concept of spiritual warfare informed virtually every aspect of life in the cloister It thus breaks new ground in the history of European attitudes

toward warfare and warriors in the age of the papal reform movement and the early crusades Katherine Allen Smith is Assistant Professor of History University of Puget Sound

A History of Medieval Spain Joseph F.

O'Callaghan,2013-04-15 Medieval Spain is brilliantly recreated in all its variety and richness in this comprehensive survey Likely to become the standard work in English the book treats the entire Iberian Peninsula and all the people who inhabited it from the coming of the Visigoths in the fifth century to the reign of Ferdinand and Isabella Integrating a wealth of information about the diverse peoples institutions religions and customs that flourished in the states that are now Spain and Portugal Joseph F O Callaghan focuses on the continuing attempts to impose political unity on the peninsula O Callaghan divides his story into five compact historical periods and discusses political social economic and cultural developments in each period By treating states together he is able to put into proper perspective the relationships among them their similarities and differences and the continuity of development from one period to the next He gives proper attention to Spain's contacts with the rest of the medieval world but his main concern is with the events and institutions on the peninsula itself Illustrations genealogical charts maps and an extensive bibliography round out a book that will be welcomed by scholars and student of Spanish and Portuguese history and literature as well as by medievalists as the fullest account to date of Spanish history in the Middle Ages

Writing Welsh History Huw Pryce,2022-04-07

Writing Welsh History is the first book to explore how the history of Wales and the Welsh has been written over the past fifteen hundred years By analysing and contextualizing a wide range of historical writing from Gildas in the sixth century to recent global approaches it opens new perspectives both on the history of Wales and on understandings of Wales and the Welsh and thus on the use of the past to articulate national and other identities The study's broad chronological scope serves to highlight important continuities in interpretations of Welsh history One enduring preoccupation is Wales's place in Britain Down to the twentieth century it was widely held that the Welsh were an ancient people descended from the original inhabitants of Britain whose history in its fullest sense ended with Edward I's conquest of Wales in 1282 4 their history thereafter being regarded as an attenuated appendix However Huw Pryce shows that such master narratives based on medieval sources and focused primarily on the period down to 1282 were part of a much larger and more varied historiographical landscape Over the past century the thematic and chronological range of Welsh history writing has expanded significantly notably in the unprecedented attention given to the modern period reflecting broader trends in an increasingly internationalized historical profession as well as the influence of social economic and political developments in Wales and elsewhere

Crusades Benjamin Z. Kedar,Jonathan

Phillips,Jonathan Riley-Smith,2016-08-12 Crusades covers seven hundred years from the First Crusade 1095 1102 to the fall of Malta 1798 and draws together scholars working on theatres of war their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology law literature art numismatics and economic social political and military history Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East Particular

attention is given to the publication of historical sources in all relevant languages narrative homiletic and documentary in trustworthy editions but studies and interpretative essays are welcomed too Crusades appears in both print and online editions **Monastic Wales** Janet Burton, Karen Stöber, 2013-03-15 A collection of essays by leading scholars that investigates the significance of Wales s medieval religious houses in the development of Welsh society politics and culture
