Studies In Medievalism Volume 8 Medieval:

Neo-Victorianism and Medievalism ,2024-04-30 Bringing together neo Victorian and medievalism scholars in dialogue with each other for the first time this collection of essays foregrounds issues common to both fields The Victorians reimagined the medieval era and post Victorian medievalism repurposes received nineteenth century tropes as do neo Victorian texts For example aesthetic movements such as Arts and Crafts which looked for inspiration in the medieval era are echoed by steampunk in its return to Victorian dress and technology Issues of gender identity sexuality imperialism and nostalgia arise in both neo Victorianism and medievalism and analysis of such texts is enriched and expanded by the interconnections between the two fields represented in this groundbreaking collection Tudorism Tatiana C. String,Marcus Bull,2011-12-22 In architecture music and literature in paintings films and television series in print and on the internet the Tudors are a hugely popular commodity This volume is the first to study this phenomenon in depth assembling foremost scholars in multiple fields to examine why the Tudors still make such an impact **Handbook of Medieval Studies** Albrecht Classen,2010-11-29 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field The handbook consists of four parts The first large section offers articles on all of the main disciplines and discussions of the field The second section presents articles on the key concepts of modern medieval studies and the debates therein The third section is a lexicon of the most important text genres of the Middle Ages The fourth section provides an international bio bibliographical lexicon of the most prominent medievalists in all disciplines A comprehensive bibliography rounds off the compendium The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together **Medieval Canon Law** James A Brundage,2014-06-11 It is impossible to understand how the medieval church functioned and in turn influenced and controlled the lay world within its care without understanding the development character and impact of canon law its own distinctive law code However important this can seem a daunting subject to non specialists They have long needed an attractive but authoritative introduction avoiding arid technicalities and setting the subject in its widest context James Brundage s marvellously fluent and accessible book is the perfect answer it will be warmly welcomed by medievalists and students of ecclesiastical and legal history **Envisaging Heaven in the Middle Ages** Carolyn Muessig,Ad Putter,2006-10-16 Envisaging Heaven in the Middle Ages deals with medieval notions of heaven in theological and mystical writings in visions of the Otherworld and in medieval art poetry and music It considers the influence of such notions in the secular literature of some of the greatest writers of the period including Chr tien de Troyes and Chaucer The coherence and beauty of these notions make heaven one of the most impressive medieval cathedrals of the mind With contributions from

experts such as A C Spearing Peter Meredith Peter Dronke and Robin Kirkpatrick this collection is essential reading for all those interested in medieval religion and culture **Music and Performance in the Later Middle Ages E.**

Upton,2012-12-28 This book seeks to understand the music of the later Middle Ages in a fuller perspective moving beyond the traditional focus on the creative work of composers in isolation to consider the participation of performers and listeners in music making Approaches to Teaching Langland's Piers Plowman Thomas A. techniques for teaching William Langland s Piers Plowman in college classrooms including consideration of versification hunger popular culture language translation dramatic adaptations the A B and C texts and historical contexts Includes information on reference works online resources and clerical orders Gives syllabus suggestions for undergraduate and graduate courses Dives and pauper Priscilla Heath Barnum,1976 The third and final volume containing introduction

Music and Medieval Manuscripts Randall Rosenfeld,2017-07-05 The interdisciplinary approach of Music and Medieval Manuscripts is modeled on the work of the scholar to whom the book is dedicated Professor Andrew Hughes is recognized internationally for his work on medieval manuscripts combining the areas of paleography performance liturgy and music All these areas of research are represented in this collection with an emphasis on the continuity between the physical characteristics of medieval manuscripts and their different uses Albert Derolez provides a landmark and controversial essay on the origins of pre humanistic script while Margaret Bent proposes a new interpretation of a famous passage from a fifteenth century poem by Martin Le Franc Timothy McGee contributes an innovative essay on late medieval music text and rhetoric David Hiley discusses musical changes and variation in the offices of a major saint s feast and Craig Wright presents

an original study of Guillaume Dufay Jan Ziolkowski treats the topic of neumed classics an under explored aspect of the history of medieval pedagogy and the transmission of texts The essays that comprise this volume offer a unique focus on medieval manuscripts from a wide range of perspectives and will appeal to musicologists and medievalists alike
