aesthetics and pursuing old ones in new ways such as investigating stepmothering as it might inform and ground an ethics of care The theoretical foci of the book include feminist existential ethical aesthetic phenomenological social and political theories These perspectives are then employed to consider many dimensions of pregnancy childbirth and mothering which are of central importance to human existence but are only rarely discussed in philosophical canons Topics include pregnancy and embodiment breast feeding representations or the lack thereof of pregnant and birthing women adoption and post partum motherhood Religious Philosophy as Multidisciplinary Comparative Inquiry Wesley J. Wildman,2010-11-05

What can philosophy contribute to the study of religion This book argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they arc across the world s religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future *The Routledge Companion to Philosophy in Organization Studies*

procedure employed in arriving at knowledge claims *The Anatomy of Inquiry* Israel Scheffler, 1981-01-01 *Inclusion, Diversity, and Intercultural Dialogue in Young People's Philosophical Inquiry* Ching-Ching Lin, Lavina Sequeira, 2017-07-20

The ever shifting cultural and linguistic landscapes in contemporary societies create new urgency for an intersectional thematic study of diversity philosophy and education As educators how do we transform the vision of cultural and linguistic diversity into a wealth of resources for learning How do we actively engage cultural and linguistic diversities in philosophical inquiry with young people How do we translate the philosophical notion of cultural and linguistic diversity into pedagogical practices The chapters in this book respond to the task of teaching philosophy in the context of increased mobility in the new global reality By complicating the situated and fluid nature of contemporary classrooms this book challenges the normalizing tendency often associated with philosophy education Each chapter offers a unique perspective in understanding the profound embeddedness of philosophy education in broader sociocultural contexts and prioritizes diversity in the classroom community of inquiry By carefully incorporating a broad range of theoretical perspectives and empirical research this book provides a rich resource for school teachers and educators who wish to engage diverse learners in philosophical inquiry In doing so it reaffirms the value of philosophy education as a proactive approach to democratic education
