According to Vitruvius, a good structure must meet the three characteristics of firmitas, utilitas, and venustas, which are commonly translated as stability, utility, and delight. In modern English, an equivalent would be:

- Durability: a construction should be able to withstand the elements, and remain in good condition.
- Utility: it should be appropriate for the purpose for which it is used.
- Beauty: should be pleasing to the senses.

PAINTING

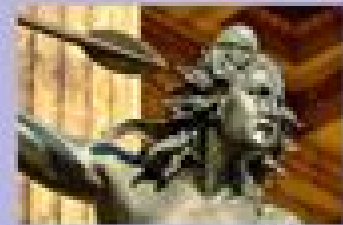

Painting is perhaps the most well known of the seven types of fine arts. People have used that a piece of paper could be a canvas to capture reality, record the beginning of time.

There have been several well-known visual artists, so it's no wonder that it's still one of the most popular and widely recognized fine art forms.

SCULPTURE

Another of the seven arts is sculpture, the ability to transform the soft to create a 3D figure. Originally, a sculpture was created by just carving into a material, which was then directly into the stone.

A few modernists did an artwork that incorporated a wide range of materials and techniques. Sculpturing is a bit more of the visual arts that captures three dimensions. It is a type of graphic art.

MUSIC

Music has a special place among the seven arts because of its capacity to create harmonious sounds using instruments. For a long time, humans had been accompanied by the music of nature.

It is a communication art form, as well as a connecting art capable of reaching the subconscious layer and influencing an entire population. There are hundreds of musical instruments, which are engaged by hands.
