Studying and Describing Unwritten Languages Luc Bouquiaux, Jacqueline M. C. Thomas, 1992 A one volume English translation of a three volume French work with techniques for gathering and processing data from unwritten languages

Handbook of Descriptive Linguistic Fieldwork Shobhana L. Chelliah, Willem J. de Reuse, 2010-10-06 The Handbook of Descriptive Linguistic Fieldwork is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field and the historical political and social variables correlating with fieldwork in different areas of the world The discussion of the ethical dimensions of fieldwork as well as what constitutes the typical linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent Included is information omitted in most other texts on the subject such as the collection representation management and methods of extracting grammatical information from discourse and conversational data as well as the relationship between questionnaire based elicitation text based elicitation and philology and the need for combinations of these methods The book is useful before during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis Comprehensive references are provided at the end of each chapter as resources relevant to the reader's particular interests

Issues in the Study of Pidgin and Creole Languages Claire Lefebvre, 2004-01-01 The content of this book is concerned with various issues at stake in Creole studies that are also of interest for general linguistics These include the general issue of Creole genesis and of the accelerated linguistic change that characterizes the emergence of these languages as compared to ordinary cases of linguistic change the problem of the development of morphology in incipient Creoles the problem of the validity of data in linguistic analysis the issue of multifunctionality as regards the concept of lexical entry the question of whether Creole languages are semantically more transparent than languages not known as Creoles the issue of whether Creole languages constitute a typologically identifiable class and the problem of the interaction between the processes involved in the emergence and development of Creole languages The purpose of this book is to present the major debates that are currently taking place in the field of Creole studies evaluate the arguments against data mainly drawn from Haitian Creole and address the issues at stake within the framework of new paradigms The various positions on each issue are summarized on the basis of a thorough review of the literature

40th Anniversary of Studies in Symbolic Interaction Norman K. Denzin, 2013-05-02 To mark 40 volumes of Studies in Symbolic Interaction this volume includes a special introduction from Series Editor Norman K Denzin This 40th volume advances critical discourse on several fronts

The Cambridge Handbook of Endangered Languages Peter

K. Austin, Julia Sallabank, 2011-03-24 It is generally agreed that about 7 000 languages are spoken across the world today and at least half may no longer be spoken by the end of this century This state of the art Handbook examines the reasons behind this dramatic loss of linguistic diversity why it matters and what can be done to document and support endangered languages The volume is relevant not only to researchers in language endangerment language shift and language death but to anyone interested in the languages and cultures of the world It is accessible both to specialists and non specialists researchers will find cutting edge contributions from acknowledged experts in their fields while students activists and other interested readers will find a wealth of readable yet thorough and up to date information Manual of Romance Sociolinguistics

Wendy Ayres-Bennett, Janice Carruthers, 2018-06-11 The Romance languages offer a particularly fertile ground for the exploration of the relationship between language and society in different social contexts and communities Focusing on a wide range of Romance languages from national languages to minoritised varieties this volume explores questions concerning linguistic diversity and multilingualism language contact medium and genre variation and change It will interest researchers and policy makers alike **Handbook of Sports Studies** Jay Coakley, Eric Dunning, 2000 An authoritative cast of

international and inter disciplinary contributors present the best of current thinking in sports studies as the subject matures and develops academically **The Oxford Handbook of Linguistic Fieldwork** Nick Thieberger, 2012 This book offers a state of the art guide to linguistic fieldwork reflecting its collaborative nature across the subfields of linguistics and disciplines such as astronomy anthropology biology musicology and ethnography Experienced scholars and fieldworkers explain the methods and approaches needed to understand a language in its full cultural context and to document it accessibly and enduringly They consider the application of new technological approaches to recording and documentation but never lose sight of the crucial relationship between subject and researcher The book is timely an increased awareness of dying languages and vanishing dialects has stimulated the impetus for recording them as well as the funds required to do so The handbook is an indispensable source guide and reference for everyone involved in linguistic and cultural fieldwork

Linguistic Fieldwork C. Bowern, 2015-02-10 Linguistic Fieldwork offers practical guidance on areas such as applying for funding the first session on a new language writing up the data and returning materials to communities This expanded second edition provides new content on the results of research on prosody elicitation on field experiment design and on working in complex syntax **A Grammar of Mbembe** Doris Richter, 2014-11-27 A Grammar of Mbembe is a description of a little studied Jukunoid language which is spoken in the borderland of Nigeria and Cameroon Present day structures of different dialects are described and discussed with respect to diachronic developments It is based on extensive fieldwork but also takes into consideration previous work on Mbembe and other Jukunoid languages The main topics in the chapters on the noun phrase and the verb and simple sentence structures are nominal classification and number marking based on Ablaut phenomena and tone argument structure and serial verb constructions The remaining chapters cover phonology complex

structures information structure and requesting information and other word classes This is complemented by example texts and a word list in the appendix
