Stücke: Stücke für das Theater am Schiffbauerdamm Bertolt Brecht,1955 **The Marxist Ethos of Bertolt Brecht and Its Relation to Existentialism** Ralph J. Ley,1963 The National Union Catalog, Pre-1956 Imprints Library of Congress,American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee,1970 Making Strange Herbert Grabes,2008 This compact indispensable overview answers a vexed question Why do so many works of modern and postmodern literature and art seem designed to appear strange and how can they still cause pleasure in the beholder To help overcome the initial barrier caused by this strangeness the general reader is given an initial non technical description of the aesthetic of the strange as it is experienced in the reading or viewing process There follows a broad survey of modern and postmodern trends illustrating their staggering variety and making plain the manifold methods and strategies adopted by writers and artists to make it strange The book closes with a systematic summary of the theoretical underpinnings of the aesthetic of the strange focussing on the ways in which it differs from both the earlier aesthetic of the beautiful and the aesthetic of the sublime It is made amply clear that the strangeness characteristic of modern and postmodern art has ushered in an entirely new third kind of aesthetic one that has undergone further transformation over the past two decades Beyond its usefulness as a practical introduction to the aesthetic of the strange the present study also takes up the most recent cutting edge aspects of scholarly debate while initiates are offered an original approach to the theoretical implications of this seminal phenomenon Beyond Alterity Qinna Shen,Martin Rosenstock,2014-07-01 With the economic and political rise of East Asia in the second half of the twentieth century many Western countries have re evaluated their links to their Eastern counterparts Thus in recent years Asian German Studies has emerged as a promising branch within interdisciplinary German Studies This collection of essays examines German language cultural production pertaining to modern China and Japan and explicitly challenges orientalist notions by proposing a conception of East and West not as opposites but as complementary elements of global culture thereby urging a move beyond national paradigms in cultural studies Essays focus on the mid century German Japanese alliance Chinese German Leftist collaborations global capitalism travel identity and cultural hybridity The authors include historians and scholars of film and literature and employ a wide array of approaches from postcolonial globalization media and gender studies The collection sheds new light on a complex and ambivalent set of international relationships while also testifying to the potential of Asian German Studies **Errors in Language Learning and Use** Carl James,2013-12-02 Errors in Language Learning and Use is an up to date introduction and guide to the study of errors in language and is also a critical survey of previous work Error Analysis occupies a central position within Applied Linguistics and seeks to clarify questions such as Does correctness matter Is it more important to speak fluently and write imaginatively or to communicate one s message Carl James provides a scholarly and well illustrated theoretical and historical background to the field of Error Analysis The reader is led from
