millions of people the world over Ilan Gur-Ze'ev and Education Alexandre Guilherme,2019-12-06 Ilan Gur Ze ev and Education Pedagogies of Transformation and Peace critically analyses and introduces the main ideas of Ilan Gur Ze ev reflecting on his continuing theoretical and practical relevance to the field of education This book offers an accessible higher level critical discussion on the thought of Ilan Gur Ze ev with an impressive breadth and contemporary focus The book focuses on Gur Ze ev s counter pedagogy project which brought him much attention and attempts to establish an alternative and non dogmatic form of education Gur Ze ev s views go against critical pedagogy and neoliberalism because while the former advocates achieving a utopia in which there is no oppression the latter defends the idea that wants and desires need to be satisfied through a process of marketisation This book brings to notice Gur Ze ev s concepts of counter education and diasporic education which seek to pursue the truth in everyday life rather than achieving a utopian goal or the promised land This unique and up to date monograph will be of great interest for researchers academics and postgraduate students in the fields of philosophy of education theory of education peace education Jewish education neoliberalism and sociology of education **Oral History and Education** Kristina R. Llewellyn,Nicholas Ng-A-Fook,2017-04-03 This book considers if and how oral history is best practice for education International scholars practitioners and teachers consider conceptual approaches methodological limitations and pedagogical possibilities of oral history education These experts ask if and how oral history enables students to democratize history provides students with a lens for understanding nation states development and supports historical thinking skills in the classrooms This book provides the first comprehensive assessment of oral history education inclusive of oral tradition digital storytelling family histories and testimony within the context of 21st century schooling By addressing the significance of oral history for education this book seeks to expand education s capacity for teaching and learning about the past A History of Australian Tort Law 1901-1945 Mark Lunney,2018-01-11 Little attention has been paid to the development of Australian private law throughout the first half of the twentieth century Using the law of tort as an example Mark Lunney argues that Australian contributions to common law development need to be viewed in the context of the British race patriotism that characterised the intellectual and cultural milieu of Australian legal practitioners Using not only primary legal materials but also newspapers and other secondary sources he traces Australian developments to what Australian lawyers viewed as British common law The interaction between formal legal doctrine and the wider Australian contexts in which that doctrine applied provided considerable opportunities for nuanced innovation in both the legal rules themselves and in their application This book will be of interest to both lawyers and historians keen to see how notions of Australian identity have contributed to the development of an Australian law *The History of India from the Earliest Ages: The Vedic period and the Mahá Bhárata* James Talboys Wheeler,1867 **The History of India from the Earliest Ages** James Talboys Wheeler,1867 **Jacques Derrida and the Challenge of History** Sean Gaston,2018-11-23 This important new book argues that Jacques Derrida s work can be treated as the basis for

a distinctive historiography The possibility of seeing Derrida not as a philosopher of language but as a philosopher of history has become more apparent with the recent publication of Derrida's 1964-1965 seminar *Heidegger: The Question of Being and History* We now know that the problem of history was at the heart of Derrida's writing in the mid 1960s prior to the publication of his best known work *Of Grammatology* 1967 Arguing that Derrida's scholarship in the 1960s and early 1970s on historicism historicity and the problem of history can be treated as the basis for a philosophy of history Sean Gaston focuses on Derrida's work from the mid 1970s to the mid 1990s and his relentless questioning of context memory and narrative as the delineation of a deconstructive historiography The book raises a challenge for historians to think about both deconstruction and historiography arguing that contemporary philosophy can provide a basis for thinking about history in the name of a deconstructive historiography that is not incompatible with rigorous historical scholarship
