Congress. House. Committee on Education and Labor,1969 **The Epic Film** Derek Elley,2013-12-04 As Charlton Heston put it There s a temptingly simple definition of the epic film it s the easiest kind of picture to make badly This book goes beyond that definition to show how the film epic has taken up one of the most ancient art forms and propelled it into the modern world covered in twentieth century ambitions anxieties hopes and fantasies This survey of historical epic films dealing with periods up to the end of the Dark Ages looks at epic form and discusses the films by historical period showing

how the cinema reworks history for the changing needs of its audience much as the ancient mythographers did The form's main aim has always been to entertain and Derek Elley reminds us of the glee with which many epic films have worn their label and of the sheer fun of the genre He shows the many levels on which these films can work from the most popular to the specialist each providing a considerable source of enjoyment For instance spectacle the genre's most characteristic trademark is merely the cinema's own transformation of the literary epic's taste for the grandiose Dramatically it can serve many purposes as a resolution of personal tensions the chariot race in Ben Hur or of monotheism vs idolatry Solomon and Sheba or of the triumph of a religious code The Ten Commandments Although to many people Epic equals Hollywood throughout the book Elley stresses debt to the Italian epics which often explored areas of history with which Hollywood could never have found sympathy Originally published 1984 **Crosscurrents** Constance Dilley, 2018-10-11 T00:00:00-04:00

Teaching Religion and Film Gregory J Watkins, 2008-08-22 In a culture increasingly focused on visual media students have learned not only to embrace multimedia presentations in the classroom but to expect them Such expectations are perhaps more prevalent in a field as dynamic and cross disciplinary as religious studies but the practice nevertheless poses some difficult educational issues the use of movies in academic coursework has far outpaced the scholarship on teaching religion and film What does it mean to utilize film in religious studies and what are the best ways to do it In Teaching Religion and Film an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom They examine the use of film to teach specific religious traditions religious theories and perspectives on fundamental human values Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way
