## **Take Out Hunger Two Case Studies Of Rural Development In Basutoland:**

**Take Out Hunger** S. Wallman, 2021-01-07 Development schemes are common throughout the third world Many fail but the reasons for failure or success are only too often not adequately studied In this monograph two schemes started in Basutoland now Lesotho are intensively analysed and compared the first which was abandoned in 1961 primarily by means of documentary material the second which was and still is successful in at least part of the area mainly through observation and field research The analysis reveals the factors making for success or failure particularly in the fields of politics economics and communication The relevance of the study extends beyond Lesotho and even Africa the analysis dealing with problems common to introduced social change and development in any part of the world **Lesotho** John E. Bardill, 2019-03-04 In this book the authors outline the features that make Lesotho unique tracing its history and discussing the peculiar structure of Lesotho's labor reserve economy and the effects it has on development politics society and culture

**The Roots of Rural Poverty in Central and Southern Africa** Robin H. Palmer, Neil Parsons, 1977-01-01 **Historical Dictionary of Lesotho** John Aerni-Flessner, Charles Fogelman, Nthabiseng Mokoena-Mokhali, 2023-11-30 Lesotho's history has long been defined by its enclave status within South Africa but it is a hard fought and hard won status that helps unite Basotho through the shared history of struggle against colonial rule in the region Since the end of apartheid in 1994 Lesotho's status as a separate entity has been called into question though the fierce national pride built through centuries of resistance to outside rule has mitigated against any serious discussions of incorporating Lesotho into South Africa Still the political instability and lack of a flourishing domestic economy have made life difficult for the majority of Basotho and could call into question the viability and legitimacy of the state in the eyes of its citizens if it cannot enact significant reforms in the coming decades Historical Dictionary of Lesotho Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Lesotho *Transforming Southern African Agriculture* Ann Willcox Seidman, 1992

Anti-Politics Machine James Ferguson, 1994-02-01 Development it is generally assumed is good and necessary and in its name the West has intervened implementing all manner of projects in the impoverished regions of the world When these projects fail as they do with astonishing regularity they nonetheless produce a host of regular and unacknowledged effects including the expansion of bureaucratic state power and the translation of the political realities of poverty and powerlessness into technical problems awaiting solution by development agencies and experts It is the political intelligibility of these effects along with the process that produces them that this book seeks to illuminate through a detailed case study of the workings of the development industry in one country Lesotho and in one development project Using an anthropological approach grounded in the work of Foucault James Ferguson analyzes the institutional framework within which such projects are

crafted and the nature of development discourse revealing how it is that despite all the expertise that goes into formulating development projects they nonetheless often demonstrate a startling ignorance of the historical and political realities of the locale they are intended to help In a close examination of the attempted implementation of the Thaba Tseka project in Lesotho Ferguson shows how such a misguided approach plays out how in fact the development apparatus in Lesotho acts as an anti politics machine everywhere whisking political realities out of sight and all the while performing almost unnoticed its own pre eminently political operation of strengthening the state presence in the local region James Ferguson is an associate professor of anthropology at the University of California at Irvine *Perceptions of Development* Sandra

Wallman,1977-10-06 Collection of case studies dealing with the Motivation to maintain quality of life through the de emphasis of economic development covers the sociological aspects and psychological aspects of the retention of traditional culture and life style in face of economic growth and modernization References and statistical tables **Migration and**

**Development** Gabriele Winai-Ström,1986 Focuses on the period from 1970 to 1980 **The Dynamics of Productive Relationships** A. F. Robertson,1987 Choice and Change John Davis,2021-01-07 This volume in honour of Professor Mair reflects the range of her interests and those of the Department in which she taught in many areas of social anthropology for it reports on research in Africa Asia and the Mediterranean on the tensions between tradition and modernity between the individual and society deviance and conformity stability and conflict The ambiguities of social change and the choices thus presented to individuals are examined in all the essays and issues of modern politics and development dominate most of them

**The Anti-Politics Machine** James Ferguson,1990-06-14 Attributes Canadian withdrawal from the Thaba Tseka rural development project largely to problems accompanying the expansion of state power etatization Includes an introductory literature survey on development planning and evaluation in general **Historical Dictionary of Lesotho** Scott Rosenberg,Richard F. Weisfelder,2013-06-13 Lesotho is rather different from most other African countries For starters it is a kingdom which preserves a traditional hierarchy and customs and its population consists of one fairly homogenous ethnic group although admittedly there are differences and occasional rifts within it Then it is a landlocked country completely surrounded by South Africa on which it depends heavily Economically it has not been doing particularly well this partly because the country is so poorly endowed by nature and its people often eke out a living abroad Politically there have been ups and downs the downs fortunately lying in the past with Lesotho doing somewhat better since the latest elections Socially and culturally as hinted it is quite unique and this can be gathered from reading the book This second edition of Historical Dictionary of Lesotho covers the full scope of Lesotho s ancient colonial and independence eras It gives greater emphasis to the more recent period and brings the book fully up to date This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 cross referenced entries on civil society key events leaders governmental international religious and other private organizations policies political movements and parties

economic elements and many other areas that have shaped the country's trajectory. This book is an excellent access point for students, researchers, and anyone wanting to know more about Lesotho. *Politics and Policy Implementation in the Third World* Merilee S. Grindle, 2017-03-14. This book addresses the broader questions of how both the content and the context of public policy affect its implementation. Through a series of case studies from Mexico, Peru, Brazil, Colombia, Zambia, Kenya, and India, ten scholars here demonstrate that numerous factors intervene between the statement of policy goals and their actual achievement in society. Originally published in 1980, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *Environment, Knowledge, and Injustice in Lesotho* Christopher R. Konz, 2024. Shows that a fraught historical process was at work in which Basotho drew on local and global sources of knowledge and how this small nation surrounded by South Africa can serve as a valuable case study for wider conversations about progress and modernization in the Global South. Both place-based environmental history and global intellectual history, this book explores the politics of environment, agriculture, poverty, development, and science in Lesotho. Drawing on diverse experiences with this landlocked mountainous nation and based on bilingual archival and oral history research in Sesotho and English, the book examines how Basotho intellectuals, farmers, migrant workers, chiefs, experts, and politicians formed vernacular ideas of tsoelopele (progress) amid the structural violence of colonialism and capitalism in southern Africa. Rather than a unidirectional flow of enlightened knowledge from Europe to Africa, the study shows that a fraught historical process was at work in which Basotho drew on local and global sources of knowledge from ancestral agricultural practices to colonial soil science and from African American missionaries to African nationalists in Ghana. Basotho ideas about tsoelopele, it is argued, informed the many political, social, and environmental innovations that enabled survival within a sea of white supremacy and that underpin approaches to development in independent Lesotho. Throughout the book, it shows how this small nation surrounded by South Africa can serve as a valuable case study for wider conversations about progress and modernization in the Global South. **Ibss: Anthropology: 1971** International Committee for Social Science Information and Documentation, 1973-08-09. First published in 1973, Routledge is an imprint of Taylor & Francis, an informal company. *African Kingships in Perspective* René Lemarchand, 2024-10-31. First published in 1977, *African Kingships in Perspective* deals comparatively and analytically with the dynamics of change in monarchical settings. It examines the variant responses of African kingships to the challenge of modernity and political centralisation and to assess their successes and failures in the face of rapid social change. The analysis is based on eight case studies: Ethiopia, Buganda, Ankole, Rwanda, Burundi, Ijebu Ode, Swaziland, and Lesotho, covering a wide range of historical experiences and social settings.

By looking at the relative staying power and adaptability of these traditional polities the editor reveals the structural regularities behind variations of culture leadership and historical experience The case studies included in this book also demonstrate the vital importance of monarchical symbols leadership patterns and strategic maneuverings for an understanding of the durability and viability of African kingships It further shows how the actions of individual monarchs may have contributed to the survival or demise of their respective kingdoms taking into account the obstacles arising from structural and environmental constraints The institution of kingship thus emerges as a significant variable in the analysis of political change in contemporary Africa This book stands as an important contribution to the political anthropology of contemporary Black Africa

Tradition and Transition in Southern Africa Andrew D. Spiegel, Patrick A. McAllister, This volume brings together many of the most interesting anthropologists writing on the current situation in South Africa Initially conceived as a tribute to the work of Philip Mayer the author of *Townsmen and Tribesmen* the volume continues a tradition of digging into the interstices of South African society at the folk tribal and national levels Each chapter examines the myriad ways in which tradition is a critical factor for those who must cope with the trauma of social and economic transition This theme central to the work of Philip and Iona Mayer allows the reader to probe the core issues of South Africa and provide a theoretical structure for the study of other societies in similar states of transition to modernity

**Cultivating the Colonies** Christina Folke Ax, 2011-08-09 The essays collected in *Cultivating the Colonies* demonstrate how the relationship between colonial power and nature reveals the nature of power Each essay explores how colonial governments translated ideas about the management of exotic nature and foreign people into practice and how they literally got their hands dirty in the business of empire The eleven essays include studies of animal husbandry in the Philippines farming in Indochina and indigenous medicine in India They are global in scope ranging from the Russian North to Mozambique examining the consequences of colonialism on nature including its impact on animals fisheries farmlands medical practices and even the diets of indigenous people *Cultivating the Colonies* establishes beyond all possible doubt the importance of the environment as a locus for studying the power of the colonial state

*Land Tenure in Ibo Village in South-Eastern Nigeria* M. M. Green, 2020-08-22 This material on land tenure forms part of the data collected during two tours in Nigeria between 1934 and 1937 while the author was the holder of a Leverhulme Research Fellowship for anthropological work among the Ibo people

**Time and Social Structure and Other Essays** Meyer Fortes, 2021-01-14 The papers reprinted in this volume have been selected with two considerations in mind they record ethnographical observations from my field work among the Tallensi and in Ashanti that are not easily accessible elsewhere but continue to be useful for comparative studies and as background to current research in Ghana and they represent applications of methods of analysis and schemes of interpretation that were emerging in British structural anthropology at the time of their publication The *Monographs on Social Anthropology* were established in 1940 and aim to publish results of modern anthropological research of primary interest to specialists
