Taking Drugs Seriously:

Taking Public Universities Seriously Frank Iacobucci, Carolyn J. Tuohy, Carolyn Hughes Tuohy, 2005-01-01 Taking Public Universities Seriously includes all the papers given at this conference and is enhanced by a comprehensive introduction by two of Canada's most prominent and experienced university administrators Frank Iacobucci and Carolyn Tuohy *Current Issues in Alcohol/drug Studies*, 1989 In this new volume experts focus on a number of important issues of current interest and controversy Is alcoholism a disease or is it not Should federal bans on drugs like heroin and cocaine be removed and will that solve modify or exacerbate the problem Can the risk for alcoholism really be predicted Professionals from a very wide variety of disciplines medicine and biochemistry psychiatry and psychology philosophy anthropology law social work and journalism present their very differing points of view on the perception of alcoholism as a disease and on public policy issues like proposed legislative controls over alcoholic beverages Taking Drugs Seriously: A Demos and UK Drug Policy Jonathan Birdwell, Jake Chapman, Nicola Singleton, UK Drug Policy Commission, Demos (Organization : London, England), 2011-03-05

Taking Life Imprisonment Seriously Kenneth G. Zysk, 2002-04-01 Life imprisonment is a complex and drastic penal sanction It gives the State the power to curtail the liberty of offenders for the rest of their lives In many jurisdictions life imprisonment is the ultimate sanction for the most serious crimes It is frequently touted as an alternative to the death penalty At the same time life imprisonment is often imposed as a preventive measure where the offence alone does not justify using the ultimate sanction in the penal arsenal The complexity of life imprisonment is frequently overlooked Often it is assumed that it is not as drastic as it sounds as it will not be enforced for the whole life of the offender There may also be a reluctance to subject life imprisonment to close scrutiny lest its perceived suitability as an alternative to the death penalty be undermined This book tackles the complexity of life imprisonment head on by describing how various forms of it are imposed and implemented in the United States of America in England and Wales and in Germany as well as in the emerging international system of criminal justice From this basis it examines the justifications advanced for life imprisonment and the modifications that have resulted in individual jurisdictions in response to criticisms of its imposition and implementation At the same time the book develops a more general critique of life imprisonment It evaluates it against constitutional human rights standards that have been developed in many jurisdictions to judge the acceptability of punishment generally It concludes that some current practices in both the imposition and implementation of life imprisonment clearly are fundamentally unacceptable but that questions remain even about carefully implemented life sentences imposed for the most serious crimes The jurisprudential analysis provides the basis for a major re evaluation of life imprisonment and raises doubts about the unquestioning acceptance of this ultimate penalty *2014 Lippincott's Nursing Drug Guide* Amy M. Illegal Drug Use in the United Kingdom Cameron Stark,Brian A. Kidd,Roger A.D Sykes,2018-12-20 First published in 1999 *Illegal Drug Use in the United Kingdom* provides a comprehensive review of information and interventions available in drug misuse in order to inform local drug policies In keeping with the policy documents in both Scotland and England the volume covers the breadth of possible interventions rather than health care alone Separate chapters review educational policing and counselling approaches and discuss work with special groups such as rural drug users sex workers and club goers Although there are specialist textbooks on all aspects of addiction this is the first text book to bring together information in the framework used in the policy documents in the UK

Refusing Care Elyn R. Saks,2024-05-31 It has been said that how a society treats its least well off members speaks volumes about its humanity If so our treatment of the mentally ill suggests

that American society is inhumane swinging between overintervention and utter neglect we sometimes force extreme treatments on those who do not want them and at other times discharge mentally ill patients who do want treatment without providing adequate resources for their care in the community Focusing on overinterventionist approaches Refusing Care explores when if ever the mentally ill should be treated against their will Basing her analysis on case and empirical studies Elyn R Saks explores dilemmas raised by forced treatment in three contexts civil commitment forced hospitalization for noncriminals medication and seclusion and restraints Saks argues that the best way to solve each of these dilemmas is paradoxically to be both more protective of individual autonomy and more paternalistic than current law calls for For instance while Saks advocates relaxing the standards for first commitment after a psychotic episode she also would prohibit extreme mechanical restraints such as tying someone spread eagled to a bed Finally because of the often extreme prejudice against the mentally ill in American society Saks proposes standards that as much as possible should apply equally to non mentally ill and mentally ill people alike Mental health professionals lawyers disability rights activists and anyone who wants to learn more about the way the mentally ill are treated and ought to be treated in the United States should read Refusing Care

The Palgrave Handbook of Philosophy and Psychoactive Drug Use Rob Lovering, 2024-10-14 In this Handbook philosophers from around the world address the metaphysics epistemology and value of psychoactive mind altering drug use In so doing they attempt to answer questions such as What does the fact of drug induced mind altering experiences tell us about natures of the mind free will and God What does it tell us about what and how we can know Are drug induced mind altering experiences valuable morally aesthetically or otherwise Is the acquisition of drug induced mind altering experiences ever immoral Should the acquisition of drug induced mind altering experiences ever be legally prohibited The Handbook gives an overview of the current research and sets the stage for future directions in philosophical thought relating to psychoactive drug use

Current Issues in Alcohol/Drug Studies Edith S Gomberg, 2019-05-23 This provocative and controversial book challenges a number of widely held ideas in the alcohol drug field by critically evaluating the bases of these ideas The field of alcohol drug studies is fraught with conflict and controversy and each generation of researchers and practitioners seems to have its own special areas of conflict In this new volume experts focus on a number of important issues of current interest and controversy Is alcoholism a disease or is it not Should federal bans on drugs like heroin and cocaine be removed and will that solve modify or exacerbate the problem Can the risk for alcoholism really be predicted Professionals from a very wide variety of disciplines medicine and biochemistry psychiatry and psychology philosophy anthropology law social work and journalism present their very differing points of view on the perception of alcoholism as a disease and on public policy issues like proposed legislative controls over alcoholic beverages Current Issues in Alcohol Drug Studies touches upon a number of questions that will be of interest both to people in alcohol drug research and in alcohol drug treatment and prevention Because it will undoubtedly stimulate further investigation and debate researchers and

policymakers will also find it useful **Drug Use and Drug Policy** Marilyn D. McShane, Franklin P.
