Success In the Seafood Eateries Vincent Gabriel,2015-12-23 I am sure Success in the Seafood Eateries will encourage more people to get into the seafood retail business This is not my intention Already the limits to the seafood eateries have been reached Too many areas have been over fished The fish at the top of the food chain are being driven out of their usual feeding grounds because of over fishing Far too much consumption on particular types of seafood like reef fish sharks abalone and tuna have not been good for the environment The solution lies in fish and prawn cultivation China is leading the world in this aspect but more needs to be done Fish is an extremely rich source of needed protein The fishermen who used to live on in shore and reef fishing have to be provided with jobs at these new fish farms Fish from farms should give the ocean a chance to recover the effects of over fishing Fresh water fish farming should be pushed harder and the great rivers the small rivers the lakes and the ponds should be re stocked Re stocking is like re forestation Today half the paper used in the world is from sustainable forest and the same can be done with sustainable fishery When this book helps to restore the balance between fishing and fish life then I will consider this Seafood Eateries Success a real success

Parliament,1908 **Success In The Barbeque Eatery** Vincent Gabriel,2014-12-01 The Barbeque Eatery is the institution that the locals find as the defining mark of the expatriate Australian and American communities in their own country If there is one expatriate he sends home letters and postcards If there are two expatriates they set up a Sunday service If there are three expatriates then after the worship service they set up the barbeque In a way the Barbeque represents the stage when the expats consider the foreign country

no more foreign than their home They have been accepted by the local community and they can gather to enjoy themselves in a way that is special to them This book takes the approach of expats introducing the barbeque to the locals Many local communities have the barbeque but none has developed such a rich food culture related to the barbeque The food culture would be less rich if not for the addition of the barbeque and the social life that grows around as locals and the expats mingle over good food **Parliamentary Debates** Western Australia.
