tradition Buddhist Birth Stories: Or, Jataka Tales, Vol ? 1 V. Fausboll, 2021-01-01 It is well known that amongst the Buddhist Scriptures there is one book in which a large number of old stories fables and fairy tales lie enshrined in an edifying commentary and have thus been preserved for the study and amusement of later times How this came about is not at present quite certain The belief of orthodox Buddhists on the subject is this The Buddha as occasion arose was accustomed throughout his long career to explain and comment on the events happening around him by telling of similar events that had occurred in his own previous births The experience not of one lifetime only but of many lives was always present to his mind and it was this experience he so often used to point a moral or adorn a tale Volume 1 of the Collected Works of Marie-Louise von Franz Marie-Louise von Franz, 2021-09-20 This newly translated volume of the Collected Works of Marie Louise von Franz one of the most renowned authorities on fairytales presents a systematic and wide ranging approach Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane realm of ordinary daily life She was one of Analytical Psychology s most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life s events The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales While peregrinations of fairytale motifs occur the common root of fairytales is more archetypal than geographic A striking feature of fairytales is that a sense of space time and causality is absent This situates them in a magical realm a land of the soul where the most interesting things happen in the center of places like Heaven mountains lakes and wells At the age of eighteen Marie Louise von Franz was invited to meet Carl Gustav Jung at Bollingen Tower She immediately recognized that there exist two levels of reality one outer and the other inner Within months she had enrolled at the University of Zurich and began attending Jung s lectures at the Eidgenossische Technische Hochschule or the Swiss Federal Institute of Technology Less than a decade after meeting Jung von Franz had completed her doctorate in classical philology and begun seeing her first analysts She was a prolific writer a dedicated teacher and lecturer and was possessed of a far reaching and often non discriminating Eros that accepted everyone seeking help Alfred Ribi MD in *Fountain of the Love of Wisdom* Chiron 2006 *Catalogue of Arabic Manuscripts in the Library of the University of Leiden and Other Collections in the Netherlands, Volume 1 Fascicule 1* Witkam, 1983-12 **Folktales of the Jews, V. 3 (Tales from Arab Lands)** Dan Ben Amos, 2011-05-01 Thanks to these generous donors for making the publication of the books in this series possible Lloyd E Cotsen The Maurice Amado Foundation National Endowment for the Humanities and the National Foundation for Jewish Culture *Tales from Arab Lands* presents tales from North Africa Yemen Lebanon Syria and Iraq in the latest volume of the most important collection of Jewish folktales ever published This is the third book in the multi volume series in the tradition of Louis Ginzberg s timeless classic *Legends of the Jews* The tales here and the others in this series have been selected from the Israel Folktale Archives

Council Vetenskapsr det Initiated in 1996 and launched in 1999 it aims at finding suitable methods and approaches for studying and analysing literature globally emphasizing the comparative and intercultural aspect Even though we nowadays have fast and easy access to any kind of information on literature and literary history we encounter more than ever the difficulty of finding a credible overall perspective on world literary history Until today literary cultures and traditions have usually been studied separately each field using its own principles and methods Even the conceptual basis itself varies from section to section and the genre concepts employed are not mutually compatible As a consequence it is very difficult if not impossible for the interested layperson as well as for the professional student to gain a clear and fair perspective both on the literary traditions of other peoples and on one s own traditions The project can be considered as a contribution to gradually removing this problem and helping to gain a better understanding of literature and literary history by means of a concerted empirical research and deeper conceptual reflection The contributions to the four volumes are written in English by specialists from a large number of disciplines primarily from the fields of comparative literature Oriental studies and African studies in Sweden All of the literary texts discussed in the articles are in the original language Each one of the four volumes is devoted to a special research topic *The Thousand and One Nights, Commonly Called The Arabian Nights'*
