Microcosmic God Theodore Sturgeon, 2013-04-09 The second of a planned 10 volumes that will reprint all Sturgeon's short fiction covers his prolific output during 1940 and 1941 after which he suffered five years of writer's block Showcasing Sturgeon's early penchant for fantasy the first six selections include whimsical ghost stories such as Cargo in which a World War II munitions freighter is commandeered by invisible peace loving fairies With the publication of his enduring SF classic Microcosmic God Sturgeon finally found his voice combining literate sharp edged prose with fascinating speculative science while recounting the power struggle between a brilliant scientist who creates his own miniature race of gadget makers and his greedy banker Voice found or not every one of the stories here is readable and entertaining today because of Sturgeon's singular gifts for clever turns of phrase and compelling narrative As Samuel R Delaney emphasizes in an insightful introduction Sturgeon was the single most influential SF writer from the 1940s through the 1960s **Tales From**

Development Hell (New Updated Edition) David Hughes, 2012-02-28 A compulsively readable journey into the area of movie making where all writers directors and stars fear to tread Development Hell the place where scripts are written actors hired and sets designed but the movies rarely actually get made Whatever happened to Darren Aronofsky's Batman movie starring Clint Eastwood Why were there so many scripts written over the years for Steven Spielberg and George Lucas's fourth Indiana Jones movie Why was Lara Croft's journey to the big screen so tortuous and what prevented Paul Verhoeven from filming what he calls one of the greatest scripts ever written Why did Ridley Scott's Crisis in the Hot Zone collapse days away from filming and were the Beatles really set to star in Lord of the Rings What does Neil Gaiman think of the attempts to adapt his comic book series The Sandman All these lost projects and more are covered in this major book which features many exclusive interviews with the writers and directors involved **Castaway Tales** Christopher Palmer, 2016-05-10 A

wide ranging and appreciative literary history of the castaway tale from Defoe to the present Ever since Robinson Crusoe washed ashore the castaway story has survived and prospered inspiring a multitude of writers of adventure fiction to imitate and adapt its mythic elements In his brilliant critical study of this popular genre Christopher Palmer traces the castaway tales history and changes through periods of settlement violence and reconciliation and across genres and languages Showing how subsequent authors have parodied or inverted the castaway tale Palmer concentrates on the period following H G Wells's The Island of Dr Moreau These much darker visions are seen in later novels including William Golding's Lord of the

Flies J G Ballard's *Concrete Island* and Iain Banks's *The Wasp Factory* In these and other variations the castaway becomes a cannibal the castaway's island is relocated to center of London female castaways mock the traditional masculinity of the original Crusoe or Friday ceases to be a biddable servant By the mid twentieth century the castaway tale has plunged into violence and madness only to see it return in young adult novels such as Scott O Dell's *Island of the Blue Dolphins* and Terry Pratchett's *Nation* to the buoyancy and optimism of the original The result is a fascinating series of revisions of violence and pessimism but also reconciliation

Learning to Care Robert Wuthnow, 1995-11-02 Urgent calls have gone forth from the White House and Congress from schools churches synagogues and other agencies for Americans to become more involved in caring for the needy and in serving their communities And as federal and state governments across the nation cut back on aid to the poor and disabled the role of volunteerism can only grow in importance But how can we inspire caring behavior in our young when so many adults seem indifferent to the problems of the needy when many problems such as homelessness seem beyond individual effort and when agencies often come under fire for ineffectiveness if not corruption Drawing on deeply moving personal accounts from young people who have become involved in community service as well as on data from recent national surveys *Learning to Care* looks at why teenagers become involved in volunteer work what problems and pressures they face and what we can do to nurture caring in our youth Robert Wuthnow's intimate interviews bring to life the stories of high school student volunteers teenagers such as Tanika Lane a freshman who works with Literacy Education and Direction LEAD a job training program for inner city kids and Amy Stone a homecoming queen and student body president at a suburban southern school who organizes rallies for AIDS awareness Through these profiles Wuthnow shows that caring is not innate but learned in part from the spontaneous warmth of family life and in part from finding the right kind of volunteer work He contends that volunteers sense of service is shaped by what they find in school service clubs in shelters for the homeless in working with AIDS victims or in tutoring inner city children And Wuthnow also argues that the best environment to nurture the helping impulse is the religious setting where in fact the great bulk of volunteering in America takes place In these organizations as well as in schools and community agencies teenagers can find the role models and moral incentives that will instill a sense of service that they can then carry into their adult life Robert Wuthnow is one of our leading commentators on religious life in America the author of *Acts of Compassion* which was nominated for both a Pulitzer Prize and a National Book Award *Learning to Care* the sequel to that highly acclaimed volume offers an eye opening and somewhat reassuring portrait of volunteerism among America's youth as it helps lay the groundwork for teaching our children to care
