Fash, 2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne's *The Scarlet Letter* Melville's *Moby Dick* and Stowe's *Uncle Tom's Cabin* But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and narrative innovations coached readers on how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition **The Listener**, 1929 **The Old Judge** Thomas Chandler Haliburton, 1849 **Salavandra** Theodore Erski, 2007-08 Salavandra is an isolated Caribbean island that produces coffee lumber and flowers Its products are controlled by a New York based multinational corporation A coffee farmer Antonio Richards ignites a revolution during the 2052 harvest The story also examines US trade

Hazelgrove, 2020-05-12 The inspiring story of a little known hero's pivotal role in the American Revolutionary War During the brutal winter of 1775-1776 an untested Boston bookseller named Henry Knox commandeered an oxen train hauling sixty tons of cannons and other artillery from Fort Ticonderoga near the Canadian border He and his men journeyed some three hundred miles south and east over frozen often treacherous terrain to supply George Washington for his attack of British troops occupying Boston The result was the British surrender of Boston and the first major victory for the Colonial Army This is one of the great stories of the American Revolution still little known by comparison with the more famous battles of Concord Lexington and Bunker Hill Told with a novelist's feel for narrative character and vivid description The Noble Train brings to life the events and people at a time when the ragtag American rebels were in a desperate situation Washington's army was withering away from desertion and expiring enlistments Typhoid fever typhus and dysentery were taking a terrible toll There was little hope of dislodging British General Howe and his 20,000 British troops in Boston until Henry Knox arrived with his supply convoy of heavy armaments Firing down on the city from the surrounding Dorchester Heights these weapons created a decisive turning point An act of near desperation fueled by courage daring and sheer tenacity led to a tremendous victory for the cause of independence This exciting tale of daunting odds and undaunted determination highlights a pivotal episode that changed history
