Shifting Stories Sarah M. Allen, 2020-10-26 Shifting Stories explores the tale literature of eighth and ninth century China to show how the written tales we have today grew out of a fluid culture of hearsay that circulated within elite society Sarah M Allen focuses on two main types of tales those based in gossip about recognizable public figures and those developed out of lore concerning the occult She demonstrates how writers borrowed and adapted stories and plots already in circulation and how they transformed them in some instances into unique and artfully wrought tales For most readers of that era tales remained open texts subject to revision by many hands over the course of transmission unconstrained by considerations of textual integrity or authorship Only in the mid to late ninth century did some readers and editors come to see the particular wording and authorship of a tale as important a shift that

ultimately led to the formation of the Tang tale canon as it is envisioned today

Varlam Shalamov's Kolyma Tales Nathaniel Golden, 2021-11-01 This book analyses eleven of Varlam Shalamov's Kolyma Tales from a neo Formalist perspective The tales are a testament to Shalamov's seventeen years in Stalin's Gulags and were written in an attempt to draw attention to this period in Soviet history Nathaniel Golden has primarily utilised L M O Toole's work Structure Style and Interpretation in the Russian Short Story as the major basis for analysis but has incorporated many other Formalist and indeed Structuralist methods The tales in each chapter are analysed by means of five major Formalist categories Narrative Structure Point of View Fabula and Sujet Characterisation and Setting This process highlights many of Shalamov's ideas and motifs in the tales He frequently uses techniques of estrangement and paradox to augment camp experience reflecting his belief that there is no moral emotional or spiritual gain in suffering He habitually employs a focaliser to tell the tale from a near death perspective and in consequence distances the author from events His literary background is prominent within the tales where he occasionally alludes to earlier Russian authors and their works to indicate the recurring nature of Man's fallibility against the Gulag background His characters are often simply portrayed yet representative of flawed heroes and the baseness of human beings subjected to an existence in extremis His settings are minimal yet form a major part of his message Man is compared to nature but nature is powerful and able to regenerate itself whereas Man's existence is temporary and futile This book therefore shows that the Formalist approach is indeed still valid as a literary tool of analysis as well as showing that upon the 50th year of Stalin's death Varlam Shalamov's time has arrived
