**Discourse** Barbara Lalla,Jean D'Costa,Velma Pollard,2014-02-15 A study of the multicultural multilingual and Creolized languages that characterize Caribbean discourse especially as reflected in the language choices that preoccupy creative writers *Caribbean Literary Discourse* opens the challenging world of language choices and literary experiments

characteristic of the multicultural and multilingual Caribbean In these societies the language of the master English in Jamaica and Barbados overlies the Creole languages of the majority As literary critics and as creative writers Barbara Lalla Jean D Costa and Velma Pollard engage historical linguistic and literary perspectives to investigate the literature bred by this complex history They trace the rise of local languages and literatures within the English speaking Caribbean especially as reflected in the language choices of creative writers The study engages two problems first the historical reality that standard metropolitan English established by British colonialists dominates official economic cultural and political affairs in these former colonies contesting the development of vernacular Creole and pidgin dialects even among the region s indigenous population and second the fact that literary discourse developed under such conditions has received scant attention Caribbean Literary Discourse explores the language choices that preoccupy creative writers in whose work vernacular discourse displays its multiplicity of origins its elusive boundaries and its most vexing issues The authors address the degree to which language choice highlights political loyalties and tensions the politics of identity self representation and nationalism the implications of code switching the ability to alternate deliberately between different languages accents or dialects for identity in postcolonial society the rich rhetorical and literary effects enabled by code switching and the difficulties of acknowledging or teaching those ranges in traditional education systems the longstanding interplay between oral and scribal culture and the predominance of intertextuality in postcolonial and diasporic literature *Grimm Pictures* Walter Rankin, 2015-09-03 Though Grimm s Fairy Tales was published about 200 years ago the revered collection of folk stories remains one of the most iconic pieces of children s literature and has had significant influence in modern pop culture This work examines the many ways that recent films have employed archetypal images themes symbols and structural elements that originated in the most well known Grimm fairy tales The author draws similarities between the cannibalistic symbolism of the Grimm brothers Little Red Cap and the 1991 film The Silence of the Lambs and reveals Faustian parallels between Rumpelstiltskin and the 1968 film Rosemary s Baby Each of eight chapters reveals a similar pairing and film stills and illustrations are featured throughout the work The Reference Catalogue of Current Literature , 1909 The Publishers Weekly , 1923
