aggressive campaign to Americanize the inmates and even convert them to Christianity After the war ended this movement culminated in the dispersal of the prisoners across the nation in a calculated effort to break up ethnic enclaves Howard's recreation of life in the camps is powerful provocative and disturbing Concentration Camps on the Home Front rewrites a notorious chapter in American history a shameful story that nonetheless speaks to the strength of human resilience in the face of even the most grievous injustices

**Home Front Heroes** Elizabeth Abele, 2013-12-03 This book traces the effects of the feminist and civil rights movements in the construction of Hollywood action heroes Starting in the late 1980s action blockbusters regularly have featured masculine figures who choose love and community over the path of the stoic loner committed solely to duty The American heroic quest of the past 25 years increasingly has involved a reclamation of home

creating a place for the Hero at the hearth part of a more intimate community with less restrictive gender and racial boundaries The author presents pieces of contemporary popular culture that create the complex mosaic of the present day American heroic ideal Hollywood popular films are examined that best represent the often painful shift from traditional heroic masculinity to a masculinity that is less exceptional and more vulnerable There are also chapters on how issues of race and gender intersect with the new masculinity and on subgenres of 1990s films that also developed this postfeminist masculinity

**From the Home Front** Owen Seaman, 1915      **Imagining Home** Susan Elizabeth Farrell, 2017 War has often been seen as the domain of men and thus irrelevant to gender analysis and American writers have frequently examined war according to traditional gender expectations that boys become men by going to war and girls become women by building a home Yet the writers discussed in this book complicate these expectations since their female characters often take part directly in war and especially since their male characters repeatedly imagine domestic spaces for themselves in the midst of war Chapters on Hemingway and the First World War Kurt Vonnegut and the Second World War and Tim O'Brien and the Vietnam War place these writers in their particular historical and cultural contexts while tracing similarities in their depiction of gender relationships imagined domestic spaces and the representability of trauma The book concludes by examining post 9/11 American literature probing what happens when the front lines actually come home to Americans While much has been written about Hemingway Vonnegut O'Brien and even 9/11 literature separately this study is the first to bring them together in order to examine views about war gender and domesticity over a hundred year period It argues that 9/11 literature follows a long tradition of American writing about war in which the domestic and public realms are inextricably intertwined and in which imagined domestic spaces can provide a window into representing wartime trauma an experience often thought to be unrepresentable or incomprehensible to those who were not actually there
