Dilemmas in the Courtroom Martha L. Komter, 2020-07-24 Interactional dilemmas occur when participants are required to engage in two contradictory activities at the same time or orient to two conflicting goals The existence of such dilemmas provides a context for interactants to be creative pro active and indeed strategic as they maneuver between the numerous demands placed on them and produce behavior that fits the ongoing communication episode Trials are one such episode in which the various participants in this case the judge the defendant and lawyers experience interactional dilemmas and work to resolve these through their behavior This volume offers an analysis of both the institutional factors which promote dilemmas during court proceedings and the interactional behaviors used by trial participants to navigate these dilemmas Using ethnomethodology conversation analysis and ethnography as complementary methods Komter's research combines an understanding of the legal rules for courtroom procedure and crime descriptions with details of actual trial discourse The analysis is based upon fieldnotes of 48 trials and audiotapes of 31 trials all related to violent crimes and occurring in courtrooms in Amsterdam Utrecht and Haarlem Dilemmas reflect enduring conflicts of interest or values they derive from the ongoing institutional and interactional positions of the various courtroom participants Komter points to the existence of dilemmas and to their role in shaping unfolding interaction during the trials She especially highlights the different dilemmas faced by judges and suspects and the ways in which behavior on the part of one constrains that of the other She further reveals the wide variety of ways in which interactants handle dilemmas their innovativeness and resourcefulness and the consequences these have for the unfolding interaction and the court's ultimate judgment Of course dilemmas are not only relevant to an understanding of judicial interaction This study has implications for other contexts since concerns with credibility blame responsibility and morality and their opposites are incorporated into many everyday interactions This volume examines behavior that is quite specific to a single context yet its conclusions bear upon a wide range of communication events Of interest to scholars in communication linguistics anthropology criminal justice or those with interests in ethnomethodology conversation analysis and ethnography

21st Century Sociology: A Reference Handbook Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description

[Listening to the Welfare State](#) Michael Seltzer, Christian Kullberg, Ilmari Rostila, 2017-09-08 Listening to the Welfare State presents for the first time in English central research findings from recent studies of the welfare systems of Denmark Norway Finland and Sweden The book's contributors are leading investigators of face to face encounters between welfare professionals and clients in these systems All have collected their data through ethnographic observations as well as taped recordings of these meetings By subjecting their data to conversation and discourse analyses these researchers provide a richly detailed empirical picture of the various

forms of talk at work constituting the core activity of a variety of street level bureaucracies Their findings provide a well rounded body of knowledge about what happens when professionals meet persons seeking financial assistance child protection employment vocational counselling treatment rehabilitation and related services Essential reading for both professional and students this book will provide a wealth of insights into and understandings of the micro level workings of welfare state systems

Japanese Questions: Discourse, Context and Language Lidia Tanaka, 2014-11-20 Questions and interrogatives in Japanese discourse have attracted considerable interest from grammarians but the communicative aspect has received little attention This book fills this gap Through detailed analyses of formal and informal interactions this book demonstrates that the inherent multi functional and polysemous aspect of language can also be observed in the use of questions What emerges is a sense of the considerable variety of question forms and also an understanding of how questions are used to perform a wide range of social actions The importance of context is stressed throughout the book both in guiding the speakers choices of question types and in helping to create the particular stance that characterizes those interactions The data used in this book shows that speakers prefer questions that are not canonical When speakers do use canonical questions these are overwhelmingly accompanied by some mollifiers This phenomenon suggests that in Japanese communication the illocutionary force of canonical questions is too strong To soften the interaction speakers tend to use other types of interrogative forms such as statements with rising intonation or at least to leave questions grammatically unfinished The findings in this book contribute to the understanding of how Japanese speakers use questions in different communicative interactions and provide new evidence of the gap between prescriptive grammar and actual communication

Conversation and Gender Susan A. Speer, Elizabeth Stokoe, 2011-01-06 Conversation analysts have begun to challenge long cherished assumptions about the relationship between gender and language asking new questions about the interactional study of gender and providing fresh insights into the ways it may be studied empirically Drawing on a lively set of audio and video recorded materials of real life interactions including domestic telephone calls children s play mediation sessions police suspect interviews psychiatric assessments and calls to telephone helplines this volume is the first to showcase the latest thinking and cutting edge research of an international group of scholars working on topics at the intersection of gender and conversation analysis Theoretically it pushes forward the boundaries of our understanding of the relationship between conversation and gender charting new and exciting territory Methodologically it offers readers a clear practical understanding of how to analyse gender using conversation analysis by presenting detailed demonstrations of this method in use

Doing Conversation, Discourse and Document Analysis Tim Rapley, 2011-09-09 Introducing the theory and practice of conversation discourse and document analysis this text demonstrates the usefulness of these methods in addressing key questions in the social sciences Tim Rapley also provides an overview of the particular challenges involved in collecting and analysing data from these sources

Discussing Conversation Analysis Carlo L. Prevignano, Paul J.

Thibault,2003-04-28 **Discussing Conversation Analysis** The work of Emanuel A Schegloff presents an in depth view on Schegloff s complex and stimulating work in Conversation Analysis CA and offers clear insights into how it has and may be developed further as a research tool in social psychology social science artificial intelligence and linguistics What is the status of fine grained empirical studies of human interaction in CA and how does CA relate to other approaches to linguistic interaction What is Schegloff s contribution to CA and how does his work relate to that of Goffman Garfinkel and Sacks How does CA distinguish its own analytical tools and terms from the categories of the participants in talk What can CA reveal about human computer interaction What can CA contribute to the neurosciences in the study diagnosis and treatment of linguistically impaired individuals How does CA account for the socio historical dimension of the material and semiotic resources that participants co deploy in talk By addressing these and other questions this volume proposes a critical guide to CA and its applications with an extraordinary interview with Emanuel A Schegloff and new contributions towards a debate on his work by six commentators conversation analysts John Heritage and Charles Goodwin critics Rick Iedema and P r Segerdahl and appliers of CA in the study of human computer interaction Pirkko Raudaskoski and language disorders Ruth Lesser Schegloff s Response and a closing discussion with the editors conclude the volume which also features a comprehensive bibliography of his work edited by Susan Eerdmans Emanuel A Schegloff is Professor of Sociology with a joint appointment in Applied Linguistics at the University of California Los Angeles Educated at Harvard and the University of California Berkeley he has taught at Columbia University as well as at UCLA He received a Guggenheim Fellowship and was a resident Fellow at the Netherlands Institute of Advanced Study in the Humanities and Social Sciences 1978 79 and the Center for Advanced Study in the Behavioral Sciences Stanford 1998 99

Making Sense of the Paranormal Rachael Ironside,Robin Wooffitt,2022-01-03 This book is a study of how people collaboratively interpret events or experiences as having paranormal features or as evidence of spiritual agency The authors study recordings of paranormal research groups as they conduct real life investigations into allegedly haunted spaces and the analyses describe how through their talk and embodied actions participants collaboratively negotiate the paranormal status of the events they experience By drawing on the study of the social organisation in everyday interaction they show how paranormal interpretations may be proposed contested and negotiated through conversational and embodied practices of the group The book contributes to the sociology of anomalous experience and explores its relevance to other social science topics such as dark tourism participation in religious spaces and practices and the attribution of agency This book will therefore be of interest to academics and postgraduate researchers of language and social interaction discourse and communication cultural studies social psychology sociology of religious experience parapsychology communication and psychotherapy
