The Reign of Religion in Contemporary Philosophy Sarvepalli Radhakrishnan, 1920 A Source Book in Indian Philosophy Sarvepalli Radhakrishnan, Charles A. Moore, 1957

Here are the chief riches of more than 3 000 years of Indian philosophical thought: the ancient Vedas, the Upanishads, the epics, the treatises of the heterodox and orthodox systems, the commentaries of the scholastic period and the contemporary writings. Introductions and interpretive commentaries are provided.

The Philosophy of Rabindranath Tagore Sarvepalli Radhakrishnan, 1918 **The Philosophy of Rabindranath Tagore** Sarvepalli Radhakrishnan, 2017-08-24 *Indian Philosophy* Sarvepalli Radhakrishnan, 2008

Tracing the development of Indian philosophy as a single tradition of thought, these two volumes provide a classical exposition of Indian thought. The author showcases ancient philosophical texts and relates them to contemporary issues of philosophy and religion. He presents the essential meaning and significance of individual texts and philosophies and also draws parallels between Indian and western philosophical traditions. The first volume covers the Vedic and Epic periods, including expositions on the hymns of the Rig Veda, the Upanishads, Jainism, Buddhism, and the theism of the Bhagavadgita. The second investigates the six Brahmanical philosophical systems, the theism of Ramanuja, Saiva ethics, metaphysics and literature, and the theism of the later Vaishnavas. This second edition, with a new Introduction by eminent philosopher J N Mohanty, underlines the continuing relevance of the two volumes and the philosophic tradition they represent. Lucidly written, these books will form essential reading for students, teachers, scholars of Indian philosophy as well as general readers interested in the development and growth of Indian thought.
