Schwartz,Peter Tomson,2006-01-01 This long awaited companion volume to The Literature of the Sages First Part Fortress Press 1987 brings to completion Section II of the renowned Compendia series The Literature of the Sages Second Part explores the literary creation of thousands of ancient Jewish teachers the often anonymous Sages of late antiquity and the Middle Ages Essays by premier scholars provide a careful and succinct analysis of the content and character of various documents their textual and literary forms with particular attention to the ongoing discovery and publication of new textual material Incorporating groundbreaking developments in research these essays give a comprehensive presentation published here for the first time This volume will prove an important reference work for all students of ancient Judaism the origins of Jewish tradition and the Jewish background of Christianity The literary creation of the ancient Jewish teachers or Sages also called rabbinic literature consists of the teachings of thousands of Sages many of them anonymous For a long period their teachings existed orally which implied a great deal of flexibility in arrangement and form Only gradually as parts of this amorphous oral tradition became fixed was the literature written down a process that began in the third century C E and continued into the Middle Ages Thus the documents of rabbinic literature are the result of a remarkably long and complex process of creation and editing This long awaited companion volume to The Literature of the Sages First Part 1987 gives a careful and succinct analysis both of the content and specific nature of the various documents and of their textual and literary forms paying special attention to the continuing discovery and publication of new textual material Incorporating ground breaking developments in research these essays give a comprehensive presentation published here for the first time The Literature of the Sages Second Part is an important reference work for all students of ancient Judaism as well as for those interested in the origins of Jewish tradition and the Jewish background of Christianity *The Name of God in Jewish Thought* Michael T Miller,2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name Indeed the Jewish mystical tradition would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object Even within the tide of the 20th century s linguistic turn the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name here given pivotal importance in the articulation of human relationships and dialogue The Name of God in Jewish Thought examines the texts of

Judaism pertaining to the Name of God offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity The book begins with the formation of rabbinic Judaism in Late Antiquity travelling through the development of the motif into the Medieval Kabbalah where the Name reaches its grandest and most systematic statement and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century This investigation will highlight certain metaphysical ideas which have developed within Judaism from the Biblical sources and which present a direct challenge to the paradigms of western philosophy Thus a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety it is these philosophers who often place a peculiar emphasis on the personal name and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God Providing a comprehensive description of historical aspects of Jewish Name Theology this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name combining philosophy with text critical analysis As such it is an essential resource for students and scholars of Jewish Studies Philosophy and Religion
