Transformation 9th International Workshop on Large Scale Agile Development 1st International Workshop on Agile Sustainability 4th International Workshop on Software Intensive Business 2nd International Workshop on Agility with Microservices Programming **The British National Bibliography** Arthur James Wells,1996 **The Male Complaint** Simon James Copland,2025-04-04 Inspired by leaders such as Andrew Tate and Jordan Peterson the online Manosphere has exploded in recent years Dedicated to anti feminism these communities have orchestrated online campaigns of misogynistic harassment with some individuals going as far as committing violent terrorist attacks Although the Manosphere has become a focus point of the media researchers and governments alike discussions tend to either over sensationalize the community or offer simplistic explanations for their existence This book uses a mixture of historical and economic analysis alongside actual Manosphere content to delve deeper With *The Male Complaint* Simon James Copland explains how the Manosphere has developed and why it appeals to so many men He argues that the Manosphere is not an aberration but is deeply embedded within mainstream neoliberal social structures For a cohort of alienated men the promise of community provides a space of understanding connection and purpose This insightful book dares to dig into the corners of incel communities and online spaces where misogyny thrives It is essential reading for anyone who wants to understand and do something about this growing and worrying phenomenon **Four Exemplars of Ru (Confucianism)** Paul J. D'Ambrosio,Geir Sigurðsson,Dimitra Amarantidou,Hans-Georg Moeller,2025-08-15 This book discusses scholars who have all engaged in comparative philosophy projects many of whom first rose to fame because of their penetrating insights into the similarities and differences in Western and Chinese thought They all went beyond simply looking at how one thinker one school or one tradition relates to another each draws on sources from China and the West However their projects from role ethics to concrete metaphysics from critiquing individualism to balancing harmony and justice are attempts at re evaluating the way we view the world and live our lives These projects are systematic thorough and comprehensive descriptions of ourselves the world and our interactions with others They are all comparative but on top of this they also aim at making a point that transcends their comparisons The book thus shows that these great thinkers draw on a multiplicity of resources and while they might find some ideas closer to home than others comparison is a necessary constant Using traditional Confucian vocabulary this type of philosophizing is described as practicing xue normally understood as studying or learning But it also means to copy imitate model or emulate In the process of xue one imitates but with a nod to differences This book honors four models of such an attitude to xue In its examination of some of the most influential scholars in Chinese thought this is a seminal book for scholars and students in Chinese and comparative philosophy
